NOTICE CONVENING THE MEETING OF EQUITY SHAREHOLDERS OF INTEGRA ESSENTIA LIMITED (“TRANSFEREE COMPANY”/ “COMPANY”) AS PER THE DIRECTIONS OF HON’BLE NATIONAL COMPANY LAW TRIBUNAL, NEW DELHI BENCH

To,

The Equity Shareholders of Integra Essentia Limited (“Transferee Company”/ “the Company”)

1. **NOTICE** is hereby given that by the Order dated April 24, 2025 read with orders dated May 15, 2025 and May 22, 2025 (“**Order**”/ “**NCLT Order**”), Hon’ble National Company Law Tribunal, New Delhi Bench, has directed that a meeting of the Equity Shareholders of the Company be held at the venue, date, time and mode as decided by the Chairperson in consultation with the counsel for the Company. As per the said Order, the Chairperson in consultation with the counsel for the Company, decided that the meeting of the Equity Shareholders will be convened through Video Conferencing / Other Audio Visual Means (“**VC**”/ “**OAVM**”) (“**Meeting**”) with facility of remote e-voting, for the purpose of considering, and if thought fit, approving, with or without modification(s), the arrangement embodied in the Scheme of Arrangement for Amalgamation of G G Engineering Limited (“**Transferor Company**”) with Integra Essentia Limited (“**Transferee Company**”) and their respective Shareholders and Creditors under the provisions of Section 230 – 232 of the Companies Act, 2013 (“**Scheme**”). Accordingly, notice is hereby given that a meeting of the Equity Shareholders of the Company will be held through VC/ OAVM on **Saturday, September 27, 2025, at 03:00 PM(IST)** at which day, date and time you are requested to attend the meeting through VC/ OAVM without physical presence at a common venue.

2. At the said meeting, following resolution will be considered and if thought fit, be passed, with or without modification(s) with the requisite majority:

“RESOLVED THAT pursuant to the provisions of Sections 230 – 232 and other applicable provisions, if any, of the Companies Act, 2013 (**“Act”**), the rules, circulars and notifications made thereunder, the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (including any statutory modification or re-enactment thereof for the time being in force) as may be applicable and the enabling provisions of the Memorandum and Articles of Association of the Company and subject to the sanction of Hon’ble National Company Law Tribunal, New Delhi Bench (**“NCLT”**) and subject to such other approval(s), permission(s) and sanction(s) of regulatory and other authorities, as may be necessary and subject to such conditions and modifications as may be prescribed or imposed by NCLT or by any regulatory or other authorities, while granting such consents, approvals and permissions, which may be agreed to by the Board of Directors of the Company (hereinafter referred to as the **“Board”**, which term shall be deemed to mean and include one or more Committee(s) constituted/ to be constituted by the Board or any person(s) which the Board may nominate to exercise its powers including the powers conferred by this resolution), the arrangement embodied in the Scheme of Arrangement for Amalgamation of G G Engineering Limited (**“Transferor Company”**) with Integra Essentia Limited (**“Transferee Company”**) and their respective Shareholders and Creditors (**“Scheme”**), be and is hereby approved.

RESOLVED FURTHER THAT any Director or KMP(s) of the Company be and are hereby severally authorized to do all such acts, deeds, matters and things, as it may, in its absolute discretion deem requisite, desirable, appropriate or necessary to give effect to this resolution and effectively implement the arrangement embodied in the Scheme and to accept such modifications, amendments, limitations and/or conditions, if any, which may be required and/or imposed by the NCLT while sanctioning the arrangement embodied in the Scheme or by any authorities under law, or as may be required for the purpose of resolving any questions or doubts or difficulties that may arise including passing of such accounting entries and/or making such adjustments in the books of accounts as considered necessary in giving effect to the Scheme, as any one of the Director or KMP(s) may deem fit and proper.”

3. Take further notice that the Equity shareholders shall have the facility and option to vote on the aforesaid resolution for approval of the Scheme by casting their votes (a) through e-voting system available during the meeting to be held virtually, or (b) by remote e-voting during the period as stated below:

Commencement of remote e-voting	Wednesday, September 24, 2025, at 09:00 AM (IST)
End of remote e-voting	Friday, September 26, 2025, at 05:00 PM (IST)

It is clarified that votes may be cast by the equity shareholders by remote e-voting in terms of this Notice and casting of votes by remote e-voting does not disentitle them or their authorized representatives from attending the Meeting. However, the members or their authorized representatives who have cast their votes by remote e-voting will not be eligible to cast their votes by e-voting during the Meeting.

THE INSTRUCTIONS FOR MEMBERS FOR REMOTE E-VOTING AND JOINING THE MEETING THROUGH VC/ OAVM ARE AS UNDER:

The e-voting facilities will be provided in the following manners: -

- (i) The remote e-voting period commences on **Wednesday, September 24, 2025, at 09:00 AM (IST) and ends on Friday, September 26, 2025, at 05:00 PM (IST)** During this period equity shareholders of the Company, holding equity shares either in physical form or in dematerialized form, as on the cut-off date i.e. **Saturday, September 20, 2025**, may cast their vote electronically. The e-voting module shall be disabled by NSDL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/PoD2/CIR/P/0155 dated 11th November, 2024, read with Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-

voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- (iv) In terms of SEBI circular **no. SEBI/HO/CFD/CMD/CIR/P/2020/242** dated December 9, 2020, on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts to access e-Voting facility.

10. Summary of Valuation Report and Fairness Opinion:

- a) Valuation Report dated June 29, 2024 issued by Axiology Valuetech Private Limited – Registered Valuer and Fairness Opinion dated June 29, 2024 issued by SEBI Registered Category-I, Merchant Banker namely Corporate Professionals Capital Private Limited. Share Exchange Ratio is as under –

“Integra Essentia Limited” (Transferee Company) shall issue and allot 48 (Forty Eight) Equity shares of Face value of INR 1.00/- (Rupees One Each) each to Equity shareholders of “GG Engineering Limited” (Transferor Company) for every 100 (One Hundred) Equity Shares of Face value of INR 1/- (Rupees One Each) each held by them in the Transferor Company”.

- b) Basis of Valuation and Fairness Opinion:

For the Transferor Company - Since the Transferor Company will transfer its business to the Transferee Company through the Scheme and its operations will continue under the name of the Transferee Company, the valuer has deemed it appropriate to assign no weightage to the Discounted Free Cash Flow (DCF) Method. Further, the values derived under the DCF Method and the Net Asset Value (NAV) Method do not adequately reflect the fair value as indicated by the Market Price Method. Considering that the Transferor Company is listed on BSE Limited and is frequently traded, the valuer has considered it appropriate to assign 100% weightage to the Market Price Method (based on 90 trading days and 10 trading days volume-weighted average price).

For the Transferee Company - The valuer has considered that the Transferee Company is currently engaged in four distinct business operations. To project its future earnings and determine fair value, the valuer has applied the Discounted Cash Flow (DCF) Method in conjunction with the Market Price Method, based on the trading activity of the Company’s shares on the National Stock Exchange (NSE). The valuation process did not rely solely on a single method; instead, an equal weightage has been assigned to both the DCF Method and the Market Price Method.

11. There is no Capital/ Debt Restructuring in the Scheme.

12. Effect of the Scheme on Stakeholders

The effect of the Scheme on various stakeholders is summarized below:

i. Shareholders, promoter and non-promoter shareholders

The Company only has equity shareholders and does not have any preference shareholders. Upon the Scheme becoming effective and in consideration of vesting and undertaking, as defined under the Scheme, the Transferee Company shall allot equity shares to shareholders of the Company in the following ratio:

“Integra Essentia Limited” (Transferee Company) shall issue and allot 48 (Forty- Eight) Equity Shares of Face Value of INR 1/- (Rupee One Each) each to Equity Shareholders of “G G Engineering Limited” (Transferor Company) for every 100 (One Hundred) Equity Share of Face Value of INR 1/- (Rupee One Each) each held by them in the Transferor Company.”

The shares to be allotted to the shareholders of the Company shall rank pari passu in all respects with the then existing shareholders of the Transferee Company from the Appointed Date.

Considering the overall rationale and benefit of the Scheme, the Board is of the view that the Scheme is in the best interest of all the stakeholders including shareholders of the Company.

ii. Directors and Key Managerial Personnel (KMP)

The KMP and Directors of the Company will continue to hold their respective positions following the effectiveness of the proposed Scheme.

No KMPs and directors are expected to have disproportionate advantage or disadvantage in any manner.

iii. Employees

Under the Scheme, no rights of the staff and employees of the Company are being affected. The services of the staff and employees of the Company shall continue on the same terms and conditions applicable prior to the proposed Scheme.

iv. Creditors

The Scheme will have no prejudicial effect on the Creditors of the Company. No compromise is proposed with any creditors of the Company under the proposed Scheme. The liability of the creditors of the Company, under the Scheme, is neither being reduced nor being extinguished and the Company shall pay off its creditors in its normal course of business.

v. Debenture holders, and Debenture Trustees Depositors and Deposit Trustees

The Company has neither accepted any deposits from any person nor issued any debentures.

13. Effect of compromise or arrangement on material interests of directors, Key Managerial Personnel (KMP) and debenture trustee.

The Scheme does not have any effect on the material interests of the directors, Key Managerial Personnel and Debenture Trustee.

None of the Directors, KMPs (as defined under the Act and rules framed thereunder) of the Transferor Company and Transferee Company along with their respective relatives (as defined under the Act and rules framed thereunder) have any interest in the Scheme except to the extent of their respective shareholding in the Transferor Company and Transferee Company, if any. Save as aforesaid, none of the said Directors or the KMPs or their respective relatives have any material interest in the Scheme.

Further, as none of the companies have any debenture trustee, accordingly there is no effect on any debenture trustee under the Scheme.

14. Need, Rationale and Benefit of the Scheme:

- (i) This Scheme of Amalgamation would result, inter-alia, in the following synergies for both the Transferor and Transferee companies and thereby preserving and creating value for its shareholders, creditors and various other stakeholders:

- **Expansion into the Formulation Business:**

The Transferee Company is in the business of superior infrastructure infrastructural & structural steel, and engineering products which are used for diverse applications in various industries, like infrastructure, construction, mega projects, modern buildings, high-rise residential and commercial projects, engineering set-ups, among others. The Merger will enhance and strengthen the Transferee Company's Infrastructure division, improving its operational capabilities and market competitiveness. It aims to enrich the combined product offerings and expand the customer base both locally and globally.

- **Takeover / Discharge of the debt of the Transferor Company and thereby relieve it from financial stress:**

The Transferor Company has been under severe financial stress and has been facing challenges in discharging its debt obligations, with a significant lump-sum payment due in March 2024. The Transferor Company has in the past made numerous efforts to raise funds to fulfil its debt repayment obligations without much success and thereby pushing the Transferor Company to brink of an IBC process which may lead to disintegration of the promising formulation business and various stakeholders losing their value.

The Proposed Amalgamation will offer a bail out to the Transferor Company from its debt obligation by providing the necessary funds to discharge its debt and ensure continuity of its formulation business and preservation of shareholder value, alleviating creditors/ lenders pressure and ensuring a stronger / debt free merged entity ready for the long haul.

- **Value creation for Shareholders:**

The Proposed Amalgamation is expected to contribute to economic value creation for both Transferor and Transferee companies. The shareholders of Transferor company will benefit from reduced finance costs, improved profitability and additional resources to fund the growth of formulations business. The shareholders of the Transferee company are expected to benefit from Business expansion. Shareholders of both Company are also likely to benefit from the increased value created through business synergies, cost savings, reduction in administrative / operating costs and improved financial performance of the merged entity.

- **Simplification of Group structure:**

The Proposed Amalgamation would lead to simplification of the Group structure by reducing one listed company, and thereby eliminating inefficiency and cash trap on distribution of profits to shareholders in future. This will also lead to reduction of higher compliance/ reporting burden and administrative cost by reduction of one listed company. All of this will result in higher operational efficiencies and maximize value for the shareholders of both the companies.

- **Focused management, synergies, and Growth prospects:**

The Proposed Amalgamation would not only create economies of scale but also simplify management and strategic focus, leading to a better long-term performance. The Amalgamation will facilitate better and more efficient control over the business and financial conduct of the merged company allowing a more streamlined and coordinated approach to governance and strategic decision-making.

The combined entity, on the back of its financial stability is likely to attract more opportunities for organic and inorganic growth viz., partnerships, acquisitions, and market expansion, translating into enhanced financial prospects.

In summary, the amalgamation of the Transferor Company with the Transferee Company is driven by strategic business objectives of preserving businesses of both companies, build strong foundation and achieve market competitiveness by combing the collective strength of both the companies, achieving business and operational synergies & efficiencies, improved financial stability and performance, and thereby preserving and creating long-term value for its various stakeholders.

- (ii) Due to the aforesaid reasons, it is considered desirable and expedient to amalgamate all the companies in accordance with this Scheme, pursuant to Section 230 – 232 of the Companies Act, 2013.

15. Salient features of the Scheme are:

- (a) Appointed Date means July 01, 2024 or such other date as may be approved by the Hon'ble National Company Law Tribunal or by such other competent authority having jurisdiction over the Transferor Company and Transferee Company;
- (b) Effective Date means the date on which the certified copy of the order of the Hon'ble National Company Law Tribunal (NCLT) under Sections 230 and 232 of the Act sanctioning the Scheme is filed with the concerned Registrar of Companies.
- (c) Pursuant to the Scheme, upon the coming into effect of the Scheme and with effect from the Appointed Date, the entire business and undertaking of the Transferor Company, including all its assets, properties, rights, claims, liabilities, obligations, contracts, licenses, and employees, shall stand transferred to and vested in the Transferee Company as a going concern without any further act, deed, matter or thing.
- (d) All employees of the Transferor Company, who are in service on the Effective Date, shall become employees of the Transferee Company on the same terms and conditions as were applicable to them prior to the amalgamation and without any interruption in service.
- (e) Upon this Scheme coming into effect and upon transfer and vesting of the business and undertaking of the Transferor Company in the Transferee Company, the consideration in respect of such transfer shall, subject to the provisions of the Scheme, be paid and satisfied by the Transferee Company as follows:

“Integra Essentia Limited” (Transferee Company) shall issue and allot 48 (Forty Eight) Equity Shares of Face Value of INR 1/- (Rupee One Each) each to Equity Shareholders of “G G Engineering Limited” (Transferor Company) for every 100 (One Hundred) Equity Share of Face Value of INR 1/- (Rupee One Each) each held by them in the Transferor Company.”
- (f) The Scheme is conditional upon and subject to the approvals of the shareholders and creditors of the Transferor Company and the Transferee Company, as may be directed by the Hon'ble NCLT, sanction by the Hon'ble NCLT, receipt of such other approvals as may be required under applicable laws, and filing of certified copies of the orders of the Hon'ble NCLT with the Registrar of Companies of relevant jurisdiction by both the Transferor Company and the Transferee Company.
- (g) Upon the Scheme becoming effective, the Transferor Company shall, without any further act or deed, stand dissolved without being wound up.
- (h) All costs, charges, taxes, including duties, levies and all other expenses arising out of or incurred in carrying out and implementing the Scheme and matters incidental thereto shall be borne by the Transferee Company.

- 1.7. Where the Equity Shares issued by the Transferee Company pursuant to clause 1.2 above are to be allotted to the heirs, successors, executors or administrators, as the case may be, to successors of the deceased equity shareholders or legal representative of the equity shareholders of the Transferor Company the concerned heirs, successors, executors, administrators or legal representatives shall be obliged to produce evidence of title satisfactory to the Board of Directors of the Transferee Company.
- 1.8. The issue and allotment of shares to the Shareholders of the Transferor Company, as provided in this Scheme, shall be deemed to be made in compliance with the procedure laid down under Section 62 read with Section 42 of the Companies Act, 2013 and no separate compliance of the same shall be required.
- 1.9. Any fraction arising out of allotment of equity shares above together with all additions or accretions thereto, shall be consolidated and held by the Trust, nominated by the Board of Directors of the Transferee Company on behalf of shareholders of the Transferor Company entitled to fractional entitlements with the express understanding that such trustee shall sell such shares in the market at such price as the trustee may deem fit, within a period of 90 (Ninety) days from the date of allotment of shares as per this Scheme and the Transferee Company shall distribute the net sale proceeds, subject to tax deductions and other expenses

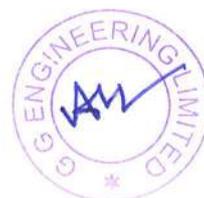

[Handwritten signature]

as applicable, to the shareholders of the Transferor Company in proportion to their respective fractional entitlements. Any fractional entitlement from such net proceeds shall be rounded off to the next Rupees. It is hereby clarified that the distribution of the sale proceeds shall take place only after sale of all the equity shares of the Transferee Company consolidated and allotted to the Trustee on account of fractional entitlements. There will be no conflict of interest with respect to appointment of trustees and selling of consolidated fractional shares in the market.

- 1.10. The said equity shares in the capital of the Transferee Company to be issued to the shareholders of the Transferor Company shall rank *pari passu* in all respects, with the existing equity shares in the Transferee Company from the Appointed Date. Such shares in the Transferee Company, to be issued to the shareholders of the Transferor Company will, for all purposes, save as expressly provided otherwise, be deemed to have been held by each such member from the Appointed Date.
- 1.11. Upon effectiveness of this Scheme, the Promoters of the Transferor Company shall be reclassified as public category shareholder in the Transferee Company. Thus, the approval to the draft Scheme shall be considered as the deemed approval under Regulation 31A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.
- 1.12. The Equity Shares issued by the Transferee Company pursuant to clause 1.2 above in respect of such Equity Shares of the Transferor Company as are subject to Lock-in pursuant to the Applicable Law, shall remain locked-in as required under the SEBI Master Circular.
- 1.13. The Equity Shares issued by the Transferee Company pursuant to clause 1.2 above in respect of such Equity Shares of the Transferor Company, the allotment or transfer of which is held in abeyance under the Applicable Law shall, pending allotment or settlement of dispute by order of the appropriate court or otherwise, also be kept in abeyance in like manner by the Transferee Company.
- 1.14. In the event of there being any pending share transfers, whether lodged or outstanding, of any equity shareholder of the Transferor Company, the Board of the Transferee Company shall be empowered in appropriate cases, prior to or even subsequent to the Record Date, as the case may be, to effectuate such a transfer as if changes in the registered holder were operative as on

the Record Date, in order to remove any difficulties arising to the transfer of shares in the Transferor Company, after the effectiveness of the Scheme. The Board of the Transferee Company shall be empowered to remove such difficulties as may arise in the course of implementation of this Scheme and registration of new shareholders in the Transferee Company on account of difficulties faced in the transition period.

- 1.15. Upon the Scheme becoming effective and subject to the above provisions, the shareholders of Transferor Company (other than the shares already held therein immediately before the amalgamation by the Transferee Company in the Transferor Company or vice versa) as on the Record Date shall be credited in their demat account. The shareholders of Transferor Company who hold shares in physical form shall be obligated to provide their requisite demat account details to the Transferee Company upto the date specified by the Registrar and Share Transfer Agent to enable it to issue its equity shares as provided in sub clause 1.2 above. Upon the issue and allotment of new shares in the capital of Transferee Company to the shareholders of Transferor Company, the share certificates, if any, in relation to the shares held by them in Transferor Company shall be deemed to have been cancelled.
- 1.16. In case the shareholders of the Transferor Company holding shares in physical form fails to provide their demat account details within time, the Transferee Company shall credit their shares in Demat Suspense Account and such shareholders would be eligible to claim such shares in accordance with the procedure laid down under the Applicable Law.
- 1.17. The equity shares allotted by Transferee Company, pursuant to Clause 1.7 above, shall remain frozen in the depositories system till the listing and trading permission is given by the Stock Exchanges.
- 1.18. It is to be clarified that the Transferee Company will not issue any new shares to any person otherwise than as provided in this Scheme.
- 1.19. In the event, the Transferor Company or the Transferee Company restructures their equity share capital by way of share split/consolidation/issue of bonus shares during the pendency of the Scheme, the Share Exchange Ratio, per clause 1.2 above shall be adjusted accordingly, to consider the effect of such corporate actions.
- 1.20. Upon coming into effect of this Scheme, the shares or the share certificates of Transferor Company in relation to the shares held by its member shall, without any further application, act,

instrument or deed, be deemed to have been automatically cancelled and be of no effect on and from the Effective Date without any necessity of them being surrendered.

- 1.21. The Transferee Company shall take all the necessary steps to get the Equity Shares issued pursuant to this Scheme of Arrangement listed on the concerned Stock Exchanges where its securities are listed.
- 1.22. The Transferee Company shall enter into such arrangements and give such confirmations and/or undertakings as may be necessary in accordance with the Applicable law for complying with the formalities of the concerned Stock Exchanges.

2. COMBINATION OF AUTHORIZED SHARE CAPITAL

- 2.1. With effect from the Effective Date and upon the Scheme becoming effective, without any further acts or deeds on the part of the Transferor Company or Transferee Company and notwithstanding anything contained in Section 61 of the Companies Act, 2013, the Authorized Share capital of the Transferor Company as appearing in its Memorandum of Association shall get clubbed with the Authorized Share Capital of the Transferee Company as appearing in its Memorandum of Association and pursuant to this clubbing, the Clause V of the Memorandum of Association of the Transferee Company shall stand altered to give effect to the same with effect from the Effective Date. The Face Value of Equity shares shall remain the same as of the Transferee Company after clubbing of Authorized Capital.
- 2.2. Further, in terms of section 232(3)(i) of the Act, upon coming into effect, the fee and duty paid on the Authorized Equity Share Capital of the Transferor Company shall be set off against the fee payable on Authorized Share Capital of the Transferee Company, without any further act or deed.
- 2.3. Pursuant to and after the effectiveness of the Scheme, after the clubbing of the Authorized Share Capital of the Transferor Company with the Transferee Company, Clause V of Memorandum of Association of the Transferee Company shall stand substituted accordingly by virtue of the present Scheme.
- 2.4. On approval of the Scheme by the members of the Transferee Company pursuant to Section 230 -232 of the Companies Act, 2013, it shall be deemed that the said members have also accorded their consent for approval of the alteration of the Memorandum of Association and Article of Association of the Transferee Company and no separate resolution(s) under Section

13, Section 14, Section 61 and Section 64 of the Companies Act, 2013 as may be applicable shall be required for giving effect to the provisions contained in this Scheme.

3. ACCOUNTING TREATMENT FOR AMALGAMATION

- 3.1. Upon the coming into effect of this Scheme, the amalgamation of the Transferor Company with the Transferee Company shall be accounted for as per the Purchase Method of Accounting prescribed in "Indian Accounting Standard (Ind AS) 103 for Business Combination" prescribed under Section 133 of the Companies Act, 2013, as notified under the Companies (Indian Accounting Standard) Rules, 2015, as may be amended from time to time.
- 3.2. All the assets and liabilities (Other than reserves) of the Transferor Company transferred to and vested in the Transferee Company pursuant to the Scheme, shall be recorded in the books of accounts of the Transferee Company at their respective fair values.
- 3.3. The Transferee Company shall record issuance of the New Equity Shares at fair value and accordingly credit to its share capital account the aggregate face value of the New Equity Shares. The excess, if any of the fair value of the New Equity Shares over the face value of the new equity shares issued shall be credited to securities premium reserve.
- 3.4. Pursuant to the Amalgamation, the inter- company balances between the Transferee Company and the Transferor Company, if any, appearing in the books of the Transferee Company shall stand cancelled pursuant to the Amalgamation.
- 3.5. The value of all investments, if any, held by the Transferee Company in the Transferor Company shall stand cancelled pursuant to the Amalgamation.
- 3.6. Any excess viz. fair value of New Equity Shares issued as per clause 3.4 over the fair value of net assets taken over as per clause 3.2 after giving the effect of the adjustments referred to in Clause 3.4 and Clause 3.5 hereinabove, shall be treated as goodwill. However, in the event the result is deficit, it shall be credited to capital reserve.
- 3.7. As detailed under clause 1.5 of Chapter III of the present Scheme, the goodwill, if any, arising out of the present amalgamation shall be adjusted against the Securities Premium Reserves created under the present amalgamation.

PART - IV
OTHER PROVISIONS

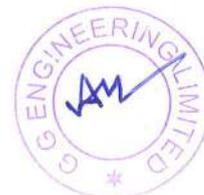

1. APPLICATION/PETITION TO NCLT

- 1.1. Transferor Company and Transferee Company shall, with all reasonable dispatch, make application/petition to the NCLT, under Section 230 – 232 of the Companies Act, 2013 seeking orders for dispensing with or convening, holding and conducting of the meetings of their respective members and/or creditors and for sanctioning the Scheme with such modifications as may be approved by the NCLT.
- 1.2. On the Scheme being agreed to by the requisite majorities of all the classes of the members and/or creditors of the Transferor Company and Transferee Company, both the Transferor and Transferee Company shall, with all reasonable dispatch, apply to the NCLT, for sanctioning the Scheme under Sections 230 and Section 232 of the Companies Act, 2013, and for such other orders, as the said NCLT may deem fit for carrying this Scheme into effect and for dissolution of the Transferor Company without winding-up.

2. CONDITIONALITY OF SCHEME

The Scheme is conditional upon and subject to:

- 2.1. The Scheme being agreed to by the respective requisite majority of members and creditors of each of the Transferor Company and Transferee Company;
- 2.2. The Scheme being approved by the NCLT;
- 2.3. Due compliance with any condition(s) stipulated by any concerned authority(ies) prior to the effectiveness of the Amalgamation;
- 2.4. All certified copies of the order(s) of the NCLT sanctioning this Scheme being filed with the Registrar of Companies of relevant jurisdiction.
- 2.5. This Scheme although to come into operation from the Appointed Date shall not become effective until the necessary certified copies of the order(s) under Sections 230 to 232 of the Companies Act, 2013 shall be duly filed with the Registrar of Companies of relevant jurisdiction.
- 2.6. Such other conditions as may be mutually agreed between the Transferor Company and Transferee Company.

3. MODIFICATION OR AMENDMENT

- 3.1. Transferee Company (acting through its Board of Directors) and Transferor Company (acting through its respective Board of Directors) may assent to any modifications or amendments to this Scheme which the Stock Exchanges, NCLT and/or other authorities may deem fit to direct or impose or which may otherwise be considered necessary or desirable for any question or doubt or difficulty that may arise for implementing and/or carrying out the Scheme or which is generally in the benefit or interest of the shareholders and/or creditors.
- 3.2. After the dissolution of Transferor Company, Transferee Company (by its Board of Directors) be and is hereby authorized to take such steps and do all acts, deeds and things as may be necessary, desirable or proper to give effect to this Scheme and to resolve any doubt, difficulties or questions whether by reason of any order(s) of the NCLT or of any directive or order(s) of any other authorities or otherwise howsoever arising out of, under or by virtue of this Scheme and/or any matters concerning or connected therewith.
- 3.3. Transferor Company and Transferee Company shall be at liberty to withdraw from this Scheme in case any condition or alteration imposed by the NCLT or any other authority is not on terms acceptable to them.
- 3.4. In the event of this Scheme failing to take effect finally, this Scheme shall become null and void and in that event no rights and liabilities whatsoever shall accrue to or be incurred inter se by the parties or its shareholders or creditors or employees or any other person. In such case, each Company shall bear its own costs or as may be mutually agreed.

4. LISTING AGREEMENT AND SEBI COMPLIANCES

- 4.1. Since the Transferor and Transferee Company are listed on the Stock Exchanges (as mentioned in Para B of the Preamble of the present Scheme), this Scheme is subject to the compliances by both the Companies of all the requirements under the Listing Regulations and all statutory directives of the Securities Exchange Board of India ('SEBI') insofar as they relate to sanction and implementation of the Scheme.
- 4.2. Pursuant to Regulation 37 of the Listing Regulations read with SEBI Master Circular, the draft Scheme of Arrangement for Amalgamation is required to be filed with the Stock Exchanges on which the equity shares of the Transferor company and Transferee Company are listed for obtaining prior approval or No objection letter/observation letter of the Stock Exchanges and

[Handwritten signature]

SEBI. Accordingly, both the Transferor and Transferee Company shall submit this Scheme with the Stock Exchanges where their securities are listed, for the purpose of obtaining no objection letter.

4.3. As Para 10 of the SEBI Master Circular is applicable to this Scheme, it is provided in the Scheme that both the Transferor and Transferee Company will provide voting by their respective public shareholders through e-voting and will disclose all material facts in the explanatory statement, to be sent to their shareholders in relation to the said Resolution. Further, as per the said para, the Scheme shall be acted upon only if the votes cast by the public shareholders in favour of the Scheme are more than the number of votes cast by the public shareholders against it.

4.4. The Transferee Company shall also comply with the directives contained in the SEBI Master Circular;

4.5. Any acquisition of shares, voting rights or control pursuant to the amalgamation of the Transferor Company and Transferee Company pursuant to this Scheme shall not trigger any obligation to make an open offer, in terms of Regulation 10(1)(d) of the Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011.

5. SAVING OF CONCLUDED TRANSACTIONS

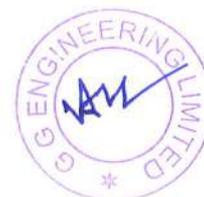

The transfer of properties and liabilities and the continuance of proceedings by or against the Transferor Company as envisaged in above shall not affect any transaction or proceedings already concluded by the Transferee Company on or before the Appointed Date and after the Appointed Date till the Effective Date, to the end and intent that Transferor Company accept and adopts all acts, deeds and things done and executed by the Transferee Company in respect thereto as done and executed by Transferee Company in respect thereto as done and executed on behalf of itself.

6. DISSOLUTION OF TRANSFEROR COMPANY

On occurrence of the Effective Date, the Transferor Company shall, without any further act or deed, shall stand dissolved without winding up.

7. GENERAL TERMS AND CONDITIONS

All costs, charges, fees, taxes including duties (including the stamp duty, if any, applicable in relation to this Scheme), levies and all other expenses, if any (save as expressly otherwise agreed) arising out of or incurred in carrying out and implementing the terms and conditions or provisions of this

Scheme and matters incidental thereto shall be borne and paid by the Transferee Company. All such costs, charges, fees, taxes, stamp duty including duties (excluding the stamp duty, if any, paid on this Scheme which shall be pro rata added to the value of the immovable properties), levies and all other expenses, shall be debited to the Profit and Loss Account of the Transferee Company.

Subsequently, on 03rd April 2017, the name of the Transferee Company was changed to its present name i.e., “G G Engineering Limited” pursuant to obtaining status of a Public Company. The Registered office of the Transferee Company is presently situated at Office No. 203, 2nd Floor, Shivam Chambers Coop Soc Ltd. S.V Road, Goregaon West, Near Sahara Apartment, Mumbai, Maharashtra - 400104. The Transferor Company is engaged in the business of superior infrastructure Infrastructural & Structural Steel, and Engineering products which are used for diverse applications in various industries, like infrastructure, construction, mega projects, modern buildings, high-rise residential and commercial projects, engineering set-ups, among others. The Equity Shares of the Transferor Company are listed on the bourses of BSE Limited.
2. **INTEGRA ESSENTIA LIMITED (hereinafter also referred to as ‘IEL’ or ‘Transferee Company’)**, bearing CIN L74110DL2007PLC396238 was incorporated on 06th August 2007, under the provisions of Companies Act, 1956 as a private company with the name & style of “Five Star Mercantile Private Limited” under the jurisdiction of Registrar of Companies, Maharashtra. Subsequently, on 03rd January 2012, the name of the Transferee Company was changed to “Five Star Mercantile Limited” pursuant to obtaining status of a Public Company. Thereafter, on 2nd August 2012, the name of the Transferee Company was changed to “Integra Garment and Textile Limited”. Later, on 16th February 2022, the name of the Transferee Company was changed to its present name i.e., “Integra Essentia Limited”. On 06th April 2022, the registered office of the Transferee Company was shifted from the state of Maharashtra to the state of New Delhi. The Registered office of the Transferee Company is presently situated at 607, 6th Floor, Pearls Best Height -II, Netaji Subhash Place, Maurya Enclave, Northwest Delhi, New Delhi - 110034. The Transferee Company is engaged into four business segments namely agro products, clothing, infrastructure, and energy. The transferee Company is mainly in the business of trading of agricultural commodities, life necessities, items of basic human needs, organic and natural products, and processed foods etc. and other essential goods, infrastructural products, among others. The Equity Shares of the Transferee Company are listed on the bourses of BSE Limited and the National Stock Exchange of India Limited.

1. **OBJECTIVES AND RATIONALE OF THE SCHEME:**

This Scheme of Amalgamation would result, inter-alia, in the following synergies for both the Transferor and Transferee companies and thereby preserving and creating value for its shareholders, creditors and various other stakeholders:

- **Consolidating strengths:**

The Transferor Company is in the business of superior infrastructure Infrastructural & Structural Steel, and Engineering products which are used for diverse applications in various industries, like infrastructure, construction, mega projects, modern buildings, high-rise residential and commercial projects, engineering

set-ups, among others. The merger will enhance and strengthen the Transferee Company's infrastructure division, improving its operational capabilities and market competitiveness. It aims to enrich the combined product offerings and expand the customer base both locally and globally.

- **Value creation for Shareholders:**

The proposed amalgamation is expected to create economic value for both the Transferor and Transferee companies. Shareholders of the Transferor company will benefit from reduced finance costs, improved profitability, and additional resources to fund business growth. Shareholders of the Transferee company are expected to benefit from business expansion. Shareholders of both companies are also likely to benefit from increased value created through business synergies, cost savings, reduced administrative/operating costs, and improved financial performance of the merged entity.

- **Focused management, synergies, and Growth prospects:**

The Proposed Amalgamation would not only create economies of scale but also simplify management and strategic focus, leading to improved long-term performance. It will facilitate better and more efficient control over the business and financial conduct of the merged company, allowing for a more streamlined and coordinated approach to governance and strategic decision-making.

The combined entity, on the back of its financial stability is likely to attract more opportunities for organic and inorganic growth viz., partnerships, acquisitions, and market expansion, translating into enhanced financial prospects.

In summary, the amalgamation of the Transferor Company with the Transferee Company is driven by strategic business objectives of preserving businesses of both companies, build strong foundation and achieve market competitiveness by combing the collective strength of both the companies, achieving business and operational synergies & efficiencies, improved financial stability and performance, and thereby preserving and creating long-term value for its various stakeholders.

This comprehensive rationale as above underscores the strategic motivations, expected benefits, and the context surrounding the Proposed Amalgamation, highlighting its alignment with both the companies' objectives and the interests of their various stakeholders.

SECTION III - METHODS OF VALUATION ADOPTED

In case of a valuation for Amalgamation, the emphasis is on arriving at the “relative” values of the shares of the merging companies to facilitate determination of the “share exchange ratio”. Hence, the purpose is not to arrive at absolute values of the shares of the companies.

Judicial Pronouncements: -

Hindustan lever Employees’ Union v/s Hindustan lever Limited and others (1995) 83 Company cases 30 (SC)

The jurisdiction of the Court in sanctioning a claim of merger is not to ascertain mathematical accuracy if the determination satisfied the arithmetical test. A company court does not exercise an appellate jurisdiction. It exercises a jurisdiction founded on fairness. It is not required to interfere only because the figure arrived at by the valuer was not as good as it would have been if another method had been adopted. What is imperative is that such a determination should not have been contrary to law and that it was not unfair for the shareholders of the company which was being merged.

The Hon’ble Supreme Court held “We do not think that the internal management, business activity or institutional operation of public bodies can be subjected to inspection by the court. To do so, is incompetent and improper and, therefore, out of bounds.”

The **dominance of profits for valuation of share was emphasized in “McCathies case”** (Taxation, 69 CLR 1) where it was said that *“the real value of shares in a company will depend more on the profits which the company **has been making and should be capable of making**, having regard to the nature of its business, than upon the amount which the shares would realize on liquidation”*. This was also re-iterated by the Indian Courts in Commissioner of Wealth Tax v. **Mahadeo Jalan’s case (S.C.)** (86 ITR 621) and Additional Commissioner of Gift Tax v. Kusumben D. Mahadevia (S.C.) (122 ITR 38).

In the ultimate analysis, valuation will have to involve the exercise of judicious discretion and judgment considering all the relevant factors. There will always be several factors, e.g., present, and prospective competition, yield on comparable securities, and market sentiments etc. which are not evident from the face of the balance sheets, but which will strongly influence the worth of a share.

Based on the facts of the case, we have valued **GG Engineering Limited (Transferor Company/ “GGEL”)** and **Integra Essentia Limited (“Transferee Company”/ “IEL”)** as per Internationally Accepted Valuation Methodologies.

SECTION – IV VALUATION ANALYSIS

There are three approaches to Valuation namely Income, Asset and Market Approaches.

Approach	Valuation Methodologies	Basis of Consideration
Asset	Net Asset Value (NAV) Method	The Asset-based method views the business as a set of assets and liabilities that are used as building blocks of a business value. The business value is the difference in the value of these assets and liabilities on a Book Value basis or Realizable Value basis or Replacement Cost basis. In the case of transferor Company and transfer Company, we have deemed it suitable to apply NAV as the Company to arrive at the book value or minimum proxy value of the company.
Market	Comparable Companies Multiples (CCM) Method	This methodology uses the valuation ratio of a publicly traded company and applies that ratio to the company being valued. The valuation ratio typically expresses the valuation as a function of a measure of financial performance or Book Value (e.g., Revenue, EBITDA, EBIT, Earnings per Share or Book Value). A key benefit of Comparable Company Market Multiple analysis is that the methodology is based on the current market stock price. The current stock price is generally viewed as one of the best valuation metrics because it is based on observable inputs. In the instant case, both the companies are listed on the Stock Exchange and Transferor is frequently traded on BSE limited (BSE) and Transferee is frequently traded on National Stock Exchange (NSE). Hence, we deemed it suitable to consider the Market Price in the NSE and BSE for the valuation exercise instead of the Comparable Multiples of the Transferor and Transferee Companies.
	Market Price Method (90 Trading Days (TD) –10 Trading Days (TD))	In this method the VWAP (Volume Weighted Average Price) of the latest 90 Trading days (TD) VWAP and 10 Trading days are taken. The maximum of these two is then taken as the fair market value. Since both the Companies are listed on the Stock Exchanges and Transferor is frequently traded on BSE limited (BSE) and Transferee is frequently traded on National Stock Exchange (NSE), we have applied this methodology in the instant case for Transferor and Transferee Companies.
Income	Discounted Cash Flow (DCF) Method	The DCF method expresses the present value of the business as a function of its future cash earnings capacity. This methodology works on the premise that the value of a business is measured in terms of future cash flow streams, discounted to the present time at an appropriate discount rate. The value of the firm is arrived at by estimating the Cash Flows (CF) to Firm and discounting the same with Weighted Average cost of capital (WACC). The DCF methodology is the most appropriate basis for determining the earning capability of a business. In the DCF approach, the appraiser estimates the cash flows of any business after all operating expenses, taxes, and necessary investments in working capital and Capex is being met. In case of, Transferor Company, we have deemed it suitable to opt DCF Method as the Company will not be in existence after this Merger, however operations will be in existence and would continue generate cash flows under the name of transferee company. In case of the Transferee Company, the business of the company is expected to be continued in future years, hence we deemed it suitable to do valuation of the Company as per Discounted Cash Flow (DCF) Method.

Note:

For the purpose of valuation of equity in this transaction through DCF methodology, we have relied upon the projections provided by the management for the period starting from 01st April 2024 and ending 31st March 2029 duly supplemented by its Terminal Value based on the Gordon Growth Model and extrapolating the adjusted free cash flows for last year at an annual growth rate of 5% to perpetuity.

DCF Assumptions:

Particulars	Notes	
Risk free rate (Rf) as on 28.03.2024	7.05%	Considered of long-term India government bond rate
Market rate of return - ER(m)	15.80%	Considered the BSE Sensex for the determination of the Market Return.
Company Beta... (β)	0.71	We have taken the Beta value (B) as 0.71 since the Company's shares are listed, hence, we have taken the company's data to arrive to the beta.
Additional Company Specific Risk Premium (CSRP)	0%	We have determined a 0% additional risk premium based on an assessment of the company's profile, financial structure, and return on investment (ROI). This evaluation considers the aggressiveness of projected future cash flows, the current national economic scenario, and the operating environment of the company.
Cost of Equity (Ke)	13.22%	As per Modified CAPM model i.e. $[Ke = Rf + \beta(Rm - Rf) + CSRP]$
Cost of Debt	10.00%	As represented by the Management & Financials of the Company
Equity portion in capital structure	98.74%	As represented by the Management after conversion of warrants into equity shares.
WACC	13.15%	$WACC = (Ke * \% \text{ Equity in Capital Structure}) + (\text{Cost of Debt} * \% \text{ Debt in Capital Structure} * (1 - \text{Tax Rate}))$
Growth Rate	5%	As the perpetuity growth rate assumes that the company will continue its historic business and generate Free Cash Flows at a steady state forever. Since terminal value constitutes a major proportion of the entire value of the business, I while deciding the terminal growth rate have given emphasis to economic factors & financial factors like Inflation of the Country, GDP growth of the Country, Projected Financials, Historical Financial Position, Organic & Inorganic growth strategies of the Company etc. Accordingly, for perpetuity, we have considered 5% growth rate

Computation of the Fair Value of GG Engineering Limited:

Fair Value of G G Engineering Limited				
All Amount INR				
Approach Applied	Methodology Applied	Weight	Equity Value per Share	Weighted Average Equity Value per Share
Asset	Net Asset Value	0%	1.39	-

Income	Discounted Cash Flow	0%	1.39	-
Weighted Average Equity Value per Share				2.10

Weightage Rationale:

GG will transfer its business to IEL in the Amalgamation process and will continue the business under the name of IEL. We have considered giving zero weightage to the DFCF. Further the Value as computed by DFCF Method, and NAV Method does not comprehend the value as reached by the Market Price Method. Hence, we deemed it suitable to consider 100% weightage to the Market Price Method (90 Trading Days - 10 Trading Days).

Computation of the Fair Value of Integra Essentia Limited:

Fair Value of INTEGRA ESSENTIA LIMITED				
All Amount INR				
Approach Applied	Methodology Applied	Weight	Equity Value per Share	Weighted Average Equity Value per Share
Asset	Net Asset Value	0%	1.56	-
Market	90 Trading Days - 10 Trading Days	50%	4.41	2.21
Income	Discounted Cash Flow	50%	4.40	2.20
Weighted Average Equity Value per Share				4.41

Weightage Rationale:

The transferee company operates under the going concern assumption, and post-merger, IEL will be the resulting entity. Consequently, we have deemed it appropriate to assign zero weight to the Net Asset Value method. Additionally, since IEL will be the resulting company, future cash flows and market-derived values are both critical in determining the per-share equity value. Therefore, we have decided to assign equal weight to DCF and the Market Price Method (90 Trading Days - 10 Trading Days).

SECTION V –SHARE EXCHANGE RATIO

SHARE EXCHANGE RATIO FOR AMALGAMATION: -

BSE Circular No. LIST/COMP/02/2017-18 dated 29 May 2017 requires the valuation report for a Scheme of Arrangement to provide certain requisite information in a specified format.

Valuation Approach	Methodology Applied	GG Engineering Limited (Transferor)			Integra Essentia Limited (Transferee)

Furthermore, this Scheme of Arrangement for Amalgamation of the Transferor Company with the Transferee Company would result, inter-alia, in the following additional benefits:

This Scheme of Amalgamation would result, inter-alia, in the following benefits:

- **Consolidating strengths:**

The Transferor Company is in the business of superior infrastructure Infrastructural & Structural Steel, and Engineering products which are used for diverse applications in various industries, like infrastructure, construction, mega projects, modern buildings, high-rise residential and commercial

projects, engineering set-ups, among others. The merger will enhance and strengthen the Transferee Company's infrastructure division, improving its operational capabilities and market competitiveness. It aims to enrich the combined product offerings and expand the customer base both locally and globally.

- **Value creation for Shareholders:**

The proposed amalgamation is expected to create economic value for both the Transferor and Transferee companies. Shareholders of the Transferor company will benefit from reduced finance costs, improved profitability, and additional resources to fund business growth. Shareholders of the Transferee company are expected to benefit from business expansion. Shareholders of both companies are also likely to benefit from increased value created through business synergies, cost savings, reduced administrative/operating costs, and improved financial performance of the merged entity.

- **Focused management, synergies, and Growth prospects:**

The Proposed Amalgamation would not only create economies of scale but also simplify management and strategic focus, leading to improved long-term performance. It will facilitate better and more efficient control over the business and financial conduct of the merged company, allowing for a more streamlined and coordinated approach to governance and strategic decision-making.

The combined entity, on the back of its financial stability, is likely to attract more opportunities for organic and inorganic growth viz., partnerships, acquisitions, and market expansion, translating into enhanced financial prospects.

In summary, the amalgamation of the Transferor Company with the Transferee Company is driven by strategic business objectives of preserving businesses of both companies, build strong foundation and achieve market competitiveness by combing the collective strength of both the companies, achieving business and operational synergies & efficiencies, improved financial stability and performance, and thereby preserving and creating long-term value for its various stakeholders.

This comprehensive rationale as above underscores the strategic motivations, expected benefits, and the context surrounding the Proposed Amalgamation, highlighting its alignment with both the companies' objectives and the interests of their various stakeholders.

SHARE EXCHANGE RATIO FOR AMALGAMATION

SHARE EXCHANGE RATIO FOR AMALGAMATION:

BSE Circular No. LIST/COMP/02/2017-18 dated 29 May 2017 requires the valuation report for a Scheme of Arrangement to provide certain requisite information in a specified format.

Valuation Approach	Methodology Applied	GG Engineering Limited (Transferor)			Integra Essentia Limited (Transferee)		
		Weights	Equity Value Per Share (INR)	Weighted Equity Value Per Share (INR)	Weights	Equity Value Per Share (INR)	Weighted Equity Value Per Share (INR)
Asset	Adjusted Book Value	0%	1.39	2.10	0%	1.56	4.41
Market	Comparable Companies Multiples	Nil	Nil		Nil	Nil	
	Market Price Method	100%	2.10		50%	4.41	
Income	Discounted Cash Flow	0%	1.39		50%	4.40	

Based on above analysis, the share exchange ratio has been arrived at and accordingly the Transferee Company shall, without any further act or deed and without any further payment, issue and allot equity shares on a proportionate basis to each member of the Transferor Company whose names are recorded in the Register of Members/ List of Beneficial Owners for shares in dematerialized form of the Transferor Company on the Record Date.

CALCULATION OF EXCHANGE RATIO		
Company Name	Integra (Transferee)	GG (Transferor)
Equity Value Per Share (INR)	4.41	2.10
Exchange Ratio	1.00	0.48
Exchange Ratio For 100 Shares	100	48

“Integra Essentia Limited” (Transferee Company) shall issue and allot 48 (Forty-eight) Equity Shares of Face Value of INR 1.00/- (Rupee One Each) each to Equity Shareholders of “GG Engineering Limited” (Transferor Company) for every 100 (One Hundred) Equity Share of Face Value of INR 1.00/- (Rupee One Each) each held by them in the Transferor Company.

Method of Valuation:

There are three approaches to Valuation namely Income, Asset, and Market Approaches.

Approach	Valuation Methodologies	Basis of Consideration
Asset	Adjusted Net Asset Value (NAV) Method	<p>The Asset-based method views the business as a set of assets and liabilities that are used as building blocks of a business value. The business value is the difference in the value of these assets and liabilities on a Book Value basis Realizable Value basis or Replacement Cost basis.</p> <p>In the case of transferor Company and transfer Company, we have deemed it suitable to apply NAV as the Company to arrive at the book value or minimum proxy value of the company.</p>
Market	Comparable Companies Multiples (CCM) Method	<p>This methodology uses the valuation ratio of a publicly traded company and applies that ratio to the company being valued. The valuation ratio typically expresses the valuation as a function of a measure of financial performance or Book Value (e.g., Revenue, EBITDA, EBIT, Earnings per Share or Book Value). A key benefit of Comparable Company Market Multiple analysis is that the methodology is based on the current market stock price. The current stock price is generally viewed as one of the best valuation metrics because it is based on observable inputs.</p> <p>In the instant case, both the companies are listed on the Stock Exchange and Transferor is frequently traded on BSE limited (BSE) and Transferee is frequently traded on National Stock Exchange (NSE). Hence, we deemed it suitable to consider the Market Price in the NSE and BSE for the valuation exercise instead of the Comparable Multiples of the Transferor and Transferee Companies.</p>
	Market Price Method (90 Trading Days (TD) –10 Trading Days (TD))	<p>In this method the VWAP (Volume Weighted Average Price) of the latest 90 Trading days (TD) VWAP and 10 Trading days are taken. The maximum of these two is then taken as the fair market value.</p> <p>Since both the Companies are listed on the Stock Exchanges and Transferor is frequently traded on BSE limited (BSE) and Transferee is frequently traded on National Stock Exchange (NSE), we have applied this methodology in the instant case for Transferor and Transferee Companies.</p>
Income	Discounted Free Cash Flow (DFCF) Method	<p>The DFCF method expresses the present value of the business as a function of its future cash earnings capacity. This methodology works on the premise that the value of a business is measured in terms of future cash flow streams, discounted to the present time at an appropriate discount rate. The value of the firm is arrived at by estimating the Free Cash Flows (FCF) to Firm and discounting the same with Weighted Average cost of capital (WACC). The DFCF methodology is the most appropriate basis for determining the earning capability of a business. In the DFCF approach, the appraiser estimates the cash flows of any business after all operating expenses, taxes, and necessary investments in working capital and Capex is being met.</p> <p>In case of, Transferor Company, we have deemed it suitable to opt DCF Method as the Company will not be in existence after this Merger, however operations will be in existence and would continue generate cash flows under the name of transferee company.</p> <p>In case of the Transferee Company, the business of the company is expected to be continued in future years, hence we deemed it suitable to do valuation of the Company as per Discounted Cash Flow (DCF) Method.</p>

CONCLUSION & OPINION

In case of a valuation for Amalgamation, the emphasis is on arriving at the “relative” values of the shares of the merging companies to facilitate determination of the “share exchange ratio”. Hence, the purpose is not to arrive at absolute values of the shares of the companies.

Judicial Pronouncements: -

Hindustan lever Employees’ Union v/s Hindustan lever Limited and others (1995) 83 Company cases 30 (SC)

The jurisdiction of the Court in sanctioning a claim of merger is not to ascertain mathematical accuracy if the determination satisfied the arithmetical test. A company court does not exercise appellate jurisdiction. It exercises a jurisdiction founded on fairness. It is not required to interfere only because the figure arrived at by the valuer was not as good as it would have been if another method had been adopted. What is imperative is that such a determination should not have been contrary to law and that it was not unfair for the shareholders of the company which was being merged.

The Hon’ble Supreme Court held “I do not think that the internal management, business activity or institutional operation of public bodies can be subjected to inspection by the court. To do so, is incompetent and improper and, therefore, out of bounds.”

The **dominance of profits for valuation of share was emphasized in “McCathies case”** (Taxation, 69 CLR 1) where it was said that “*the real value of shares in a company will depend more on the profits which the company has been making and should be capable of making, having regard to the nature of its business, than upon the amount which the shares would realize on liquidation*”. This was also reiterated by the Indian Courts in **Commissioner of Wealth Tax v. MahadeoJalan’s case (S.C.)** (86 ITR 621) and **Additional Commissioner of Gift Tax v. Kusumben D. Mahadevia (S.C.)** (122 ITR 38).

In the ultimate analysis, valuation will have to involve the exercise of judicious discretion and judgment considering all the relevant factors. There will always be several factors, e.g., present, and prospective competition, yield on comparable securities, and market sentiments etc. which are not evident from the face of the balance sheets, but which will strongly influence the worth of a share.

Based on the facts of the case, we have valued **GG Engineering Limited (Transferor Company/ “GGEL”)** and **Integra Essentia Limited (“Transferee Company”/ “IEL”)** as per Internationally Accepted Valuation Methodologies.

“Subject to the above read with the caveats as detailed later, we as a Merchant Banker hereby certify that pursuant to SEBI Master Circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/0000000665 dated November 23, 2021, we have reviewed the proposed Scheme of Arrangement for Amalgamation, the Valuation Report dated 29th June 2024 of Axiology Valuetech Private Limited, Registered Valuer Entity, with respect to the share exchange ratio aspects and consider it to be fair and reasonable from the point of view of equity shareholders of the Companies”.

provisions of Companies Act 1956, having its registered office at 607, 6th Floor, Pearls Best Height -II, Netaji Subhash Place, Maurya Enclave, Northwest Delhi, New Delhi - 110034. The Transferee Company operates in four business segments namely agro products, clothing, infrastructure, and energy. It is mainly engaged in the business of trading agricultural commodities, life necessities, items of basic human needs, organic and natural products, and processed foods etc. and other essential goods, infrastructural products among others.

1.3 The following documents were tabled at the meeting and reviewed by the Audit Committee:

- Draft Scheme on the proposed Scheme of Arrangement for Amalgamation of G G Engineering Limited ('Transferor Company') with Integra Essentia Limited ('Transferee Company');
- Valuation Report containing the Share Exchange Ratio dated 29th June 2024, issued by Axiology Valuetech Private Limited, Registered Valuer Entity- all classes (Registration No. IBBI/RV-E/05/2023/201);
- Fairness opinion dated 29th June 2024, obtained from Corporate Professional Capital Private Limited, SEBI Registered, Category-I, Merchant Banker;

2. Need and rationale of the Scheme is as follows:

The committee noted the following salient features of the Scheme:

This Scheme of Amalgamation would result, inter-alia, in the following synergies for both the Transferor and Transferee companies and thereby preserving and creating value for its shareholders, creditors and various other stakeholders:

2.1 Consolidating strengths:

The Transferor Company is in the business of superior infrastructure Infrastructural & Structural Steel, and Engineering products which are used for diverse applications in various industries, like infrastructure, construction, mega projects, modern buildings, high-rise residential and commercial projects, engineering set-ups among others. The merger will enhance and strengthen the Transferee Company's infrastructure division, improving its operational capabilities and market competitiveness. It aims to enrich the combined product offerings and expand the customer base both locally and globally.

2.2 Value creation for shareholders:

The proposed amalgamation is expected to create economic value for both the Transferor and Transferee companies. Shareholders of the Transferor company will benefit from reduced finance costs, improved profitability, and additional resources to fund business growth. Shareholders of the Transferee company are expected to benefit from business expansion. Shareholders of both companies are also likely to benefit from increased value created through business synergies, cost savings, reduced administrative/operating costs, and improved financial performance of the merged entity.

2.3 Focused management, synergies, and growth prospects:

The Proposed Amalgamation would not only create economies of scale but also simplify management and strategic focus, leading to improved long-term performance. It will facilitate better and more efficient control over the business and financial conduct of the merged company, allowing for a more streamlined and coordinated approach to governance and strategic decision-making.

2.4 The combined entity, on the back of its financial stability is likely to attract more opportunities for organic and inorganic growth viz., partnerships, acquisitions, and market expansion, translating into enhanced financial prospects.

In summary, the amalgamation of the Transferor Company with the Transferee Company is driven by strategic business objectives of preserving businesses of both companies, build strong foundation and achieve market competitiveness by combing the collective strength of both the companies, achieving business and operational synergies & efficiencies, improved financial stability and performance, and thereby preserving and creating long-term value for its various stakeholders.

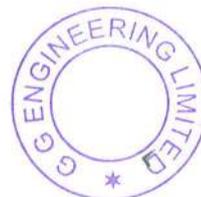

3. Synergies of Business of the entities involved in the Scheme:

- 3.1 Pooling of managerial and technical expertise of the Transferor Company. Thus, enabling better management and focus on growing the businesses.
- 3.2 The combined scale and customer reach of the merged entity will enable it to compete effectively in the market;
- 3.3 The proposed amalgamation would result in reduction of overheads, administrative, managerial and other expenditure and bring about operational rationalization, efficiency and optimum utilization of various resources.
- 3.4 Synergies created by scheme of arrangement would increase operational efficiency and integrate business functions.
- 3.5 A larger growing Company will mean enhanced financial and growth prospects for the people and organisation connected therewith, along with the public interest. The amalgamation will be conducive to more efficient and economical control over the business and better market reach.

4. Cost Benefit Analysis of the Scheme:

The Transferor and Transferee Company belongs to the same industry and the proposed amalgamation would enable the Companies to achieve operational efficiency and economies of scale by consolidating their respective resources thereby providing the benefits of cost reduction that can improve financial efficiencies in the long run.

5. Impact of the Scheme on the Shareholders:

The Audit Committee discussed and deliberated upon the rationale and expected benefits of the Scheme. The Audit Committee also reviewed the aforesaid Valuation Report in which share exchange ratio has been determined on the basis of financials of Transferor Company and Transferee Company as on 29th June 2024, and Fairness Opinion obtained from the Independent Merchant Bankers. The Committee noted the followings:

- 5.1 As per the valuation report, value per share of the Company is arrived at INR 2.10/- and that of the Transferee Company is INR 4.41/-. Based on this, the share exchange ratio is as follows:

"Integra Essentia Limited" (Transferee Company) shall issue and allot 48 (Forty Eight) Equity Shares of Face Value of INR 1/- (Rupees One Each) each to Equity Shareholders of "G G Engineering Limited" (Transferor Company) for every 100 (One Hundred) Equity Share of Face Value of INR 1/- (Rupees One Each) each held by them in the Transferor Company.

- 5.2 Upon approval of the Scheme by the National Company Law Tribunal, the Shareholders of Transferor Company as on record date shall be entitled to equity shares in the Transferee Company basis the share exchange ratio determined as per the aforementioned valuation report submitted to this committee, the shareholders of Transferor Company shall be allotted shares in the Transferee Company.

In light of the above, the Scheme will not adversely affect the rights or interest of any stakeholder of the Transferor Company including its shareholders or creditors.

6. Recommendations of the Audit Committee

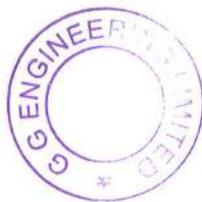

Having considered the documents, Valuation Report, Fairness Opinion, the Audit Committee hereby unanimously recommends the draft Scheme for favorable consideration of the Board of Directors of the Company, Stock Exchanges, and Securities and Exchange Board of India and such other Authorities, as applicable.

The Transferee Company is listed on the bourses of BSE Limited and the National Stock Exchange of India Limited.

Following documents were placed before the Independent Director Committee:

- Draft Scheme on the proposed Scheme of Arrangement for Amalgamation of G G Engineering Limited ('Transferor Company') with Integra Essentia Limited ('Transferee Company');
- Valuation Report containing the Share Exchange Ratio dated 29th June 2024, issued by Axiology Valuetech Private Limited, Registered Valuer Entity- all classes (Registration No. IBBI/RV-E/05/2023/201);
- Fairness opinion dated 29th June 2024, obtained from Corporate Professional Capital Private Limited, SEBI Registered, Category-I, Merchant Banker;

Salient features of Scheme of Arrangement:

The committee noted the following salient features of the scheme:

- The scheme provides for Amalgamation of G G Engineering Limited ('Transferor Company') with Integra Essentia Limited ('Transferee Company') with effect from the Appointed Date i.e., 1st July, 2024 or such other date as may be approved by the Hon'ble National Company Law Tribunal of relevant jurisdiction or by such other competent authority having jurisdiction over the Transferor Company and the Transferee Company;
- The amalgamation of Transferor Company with Transferee Company is expected to enable better realization of potential of business and yield beneficial results. It will result in enhanced value creation for the companies involved in Scheme, their respective Shareholders and Creditors.

Need and Rationale of Scheme of Arrangement:

This Scheme of Amalgamation would result, inter-alia, in the following synergies for both the Transferor and Transferee companies and thereby preserving and creating value for its shareholders, creditors and various other stakeholders:

- **Consolidating strengths:**

For Integra Essentia Limited

Authorised Signatory/Director

The Transferor Company is in the business of superior infrastructure Infrastructural & Structural Steel, and Engineering products which are used for diverse applications in various industries, like infrastructure, construction, mega projects, modern buildings, high-rise residential and commercial projects, engineering set-ups among others. The merger will enhance and strengthen the Transferee Company's infrastructure division, improving its operational capabilities and market competitiveness. It aims to enrich the combined product offerings and expand the customer base both locally and globally.

- **Value creation for shareholders:**

The proposed amalgamation is expected to create economic value for both the Transferor and Transferee companies. Shareholders of the Transferor company will benefit from reduced finance costs, improved profitability, and additional resources to fund business growth. Shareholders of the Transferee company are expected to benefit from business expansion. Shareholders of both companies are also likely to benefit from increased value created through business synergies, cost savings, reduced administrative/operating costs, and improved financial performance of the merged entity.

- **Focused management, synergies, and growth prospects:**

The Proposed Amalgamation would not only create economies of scale but also simplify management and strategic focus, leading to improved long-term performance. It will facilitate better and more efficient control over the business and financial conduct of the merged company, allowing for a more streamlined and coordinated approach to governance and strategic decision-making.

The combined entity, on the back of its financial stability is likely to attract more opportunities for organic and inorganic growth viz., partnerships, acquisitions, and market expansion, translating into enhanced financial prospects.

In summary, the amalgamation of the Transferor Company with the Transferee Company is driven by strategic business objectives of preserving businesses of both companies, build strong foundation and achieve market competitiveness by combing the collective strength of both the companies, achieving business and operational synergies & efficiencies, improved financial stability and performance, and thereby preserving and creating long-term value for its various stakeholders.

The Committee members discussed and deliberated upon the rationale and salient features of the scheme, the valuation report and fairness opinion presented before the Committee. As per the valuation report issued by Independent Registered Valuer Axiology Valuetech Private Limited, Registered Valuer Entity- all classes (Registration No. IBB/RV-E/05/2023/201), the value per share of the Transferor Company and Transferee Company was arrived at INR 2.10/- and INR 4.41/- respectively.

Accordingly, share exchange ratio for issuance of new shares of the Transferee Company to the shareholders of the Transferor Company in consideration to the proposed Scheme will be based upon their respective value per share as mentioned above i.e.,

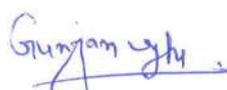

“Integra Essentia Limited” (Transferee Company) shall issue and allot 48 (Forty-Eight) Equity Shares of Face Value of INR 1/- (Rupees One Each) each to Equity Shareholders of “G G Engineering Limited” (Transferor Company) for every 100 (One Hundred) Equity Share of Face Value of INR 1/- (Rupees One Each) each held by them in the Transferor Company.

The Committee is of the informed opinion that the proposed Scheme is in the best interests of the Shareholders of the Company and not detrimental to the interest of the Shareholders, including the minority shareholders of the Company.

Recommendation of the Independent Director Committee:

Having considered the documents, Valuation Report and Fairness Opinion, the Independent Director Committee hereby unanimously recommends that the aforesaid Scheme of Arrangement for Amalgamation is not detrimental to the interest of the Shareholders of the Company.

INDEPENDENT AUDITOR'S REPORT

To the Members of **G G ENGINEERING LIMITED**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the Standalone financial statements of **G G ENGINEERING LIMITED** ("the Company"), which comprise the balance sheet as at 31st March, 2025, the statement of Profit and Loss (Including Other Comprehensive Income), statement of changes in equity, and the statement of cash flows for the period then ended, and notes to the Standalone Financial Statements, including a summary of significant accounting policies and other explanatory information

Subject to the possible impact due to matters reported in other matters para, in our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2025, its profit and total comprehensive Profit, changes in equity and its cash flows for the period ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the *Code of Ethics* issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. Except for the documents/information related to matters mentioned in other matters para, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than the financial statements and auditors' report thereon

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Business Responsibility Report but does not include the Standalone Financial Statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

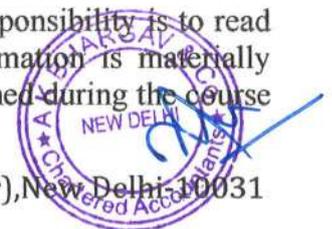

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

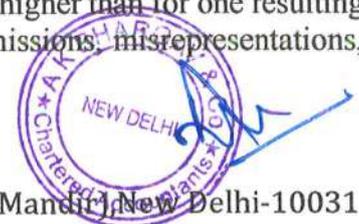

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure-"A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit except the information and explanation related to matters mentioned in other matters para.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Standalone Financial Statements have been kept so far as it appears from our examination of those books.

- c) The Balance Sheet, the Statement of Profit and Loss including other comprehensive income, statement of changes in equity and the statement of Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Standalone Financial Statements.
- d) In our opinion, except as otherwise disclosed in accounting policies and notes to the Standalone Financial Statements, the aforesaid Standalone Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014
- e) On the basis of the written representations received from the directors of the Company as on 31st March, 2025 taken on record by the Board of Directors of the Company, none of the directors of the company is disqualified as on 31st March, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company does not have pending litigations which would impact its financial position as at 31st March 2025;
 - ii. The Company did not have any material foreseeable losses on long-term contracts including derivative contracts.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv.
 - (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- (b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under and (b) above, contain any material misstatement.
- h) No dividend declared by the company declared or paid by the Company during the year.
- i) Based on our examination which included test checks, the Company, has used accounting software for maintaining its books of accounts which has a feature of recording audit trail (edit log) facility for all relevant transactions recorded in the software.
- j) With respect to the matter to be included in the Auditors’ Report under section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of section 197 read with Schedule V to the Act.

Annexure A

ANNEXURE TO THE AUDITOR'S REPORT

The Annexure referred to in our report to the members of G G ENGINEERING LIMITED ("the Company") for the year ended March 31, 2025. We report that:

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

With reference to the Annexure A referred to in the Independent Auditors' Report to the members of the Company on the standalone financial statements for the year ended 31st March 2025, we report the following:

- i) a) (A) In the absence of requisite documents, we are unable to comment if the Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.

(B) The Company does not have intangible assets as on balance sheet date.
- b) According to the information and explanations given to us, the Company has a regular programme of physical verification of its property, plant and equipment by which all property, plant and equipment are verified in a phased manner. In accordance with this programme, certain property, plant and equipment were verified during the year and no such material discrepancies were noticed. However we have not been provided any physical verification report for our verification and hence we are unable to comment if periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets.
- c) (B) The Company does not have immovable property as on balance sheet date.
- d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its property, plant and equipment (including right of use asset) or intangible assets or both during the year. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Register Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment (including Right of Use Assets) or intangible Assets does not arise.
- e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) (formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and rules made thereunder & therefore question of our commenting on whether the Company has appropriately disclosed the details in its standalone financial statement does not arise.

- ii) a) The company does not have any inventory and hence reporting under clause 3(ii)(a) of the the order is not applicable.
- b) Clause 3(ii)(b) of the Order is not applicable to the Company as the Company has not been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions during the year.
- iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company, during the year, has not provided any guarantee or security to companies, firms, limited liability partnerships or any other parties during the year. The Company, during the year, has made investment and granted loans and advances in the nature of loans during the year to companies and other parties.

- a) During the year, the Company has made the investment and provided loans, the details of which are disclosed in the financial statements (refer Note No.4,5 and 13).
- b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion,

The investments made and the terms and conditions of same are prima facie, not prejudicial to the Company's interest. Terms and Conditions in respect of the grant of loans and advances in the nature of loans, during the year, to companies or any other parties are prima facie, not prejudicial to the Company's interest. During the year the Company has not provided guarantees, provided security to companies, firms, Limited Liability Partnerships or any other parties.

- c) According to the information and explanations given to us and based on the audit procedures conducted by us, in our opinion, the Company has granted loans during the year to companies or any other entities where the schedule of repayment of principal and payment of interest has not been stipulated. Hence in the absence of same, we are unable to make a specific comment on the regularity of repayment of principal and payment of interest in respect of such loan.
- d) The Company has granted loans and in all cases schedule of repayment of principal and payment of interest has not been stipulated. Hence in the absence of same, we are unable to make a specific comment on the regularity of repayment of principal and payment of interest in respect of such loans and hence unable to comment upon any over amount for more than ninety days.
- e) There is no case of any loan or advance in the nature of loan granted which has fallen due during the year and which has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.
- f) According to the information and explanations given to us and on the basis of our examination of the records of the Company, all the loans granted by the company are for fixed defined tenure. Although the repayment schedule is not specifically defined in terms of instalment amounts or dates, the tenure and maturity of the loan are fixed. Accordingly, these loans are not in the nature of loans repayable on demand or loans granted without specifying any terms or period of repayment. Therefore, reporting under this clause is not applicable.

- b) We have considered the internal audit reports of the Company issued till date for the period under audit.
- xv) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence requirement to report on clause 3(xv) of the Order is not applicable to the Company.
- xvi) a) The provisions of section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934) are not applicable to the Company. Accordingly, the requirement to report on clause (xvi)(a) of the Order is not applicable to the Company.
- b) The Company has not conducted any Non-Banking Financial or Housing Finance activities without obtaining a valid Certificate of Registration (CoR) from the Reserve Bank of India as per the Reserve Bank of India Act, 1934.
- c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by Reserve Bank of India. Accordingly, Clause 3(xvi)(c) of the order is not applicable to the Company.
- d) According to the information and explanations provided to us during the course of audit, the Group does not have any CICs which are a part of the Group. We have not, however, separately evaluated whether the information provided by the Management is accurate and complete. Accordingly, the requirements of clause 3(xvi)(d) are not applicable to the Company.
- xvii) The company has not incurred cash losses during the financial year and in the immediately preceding financial year.
- xviii) There is no resignation of the statutory auditors of the company during the year.
- xix) According to the information and explanations given to us and on the basis of the financial ratios disclosed in note 46 to financial statements, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

- xx) According to the information and explanations given to us and based on our examination of the records, there was no amount remaining unspent under sub-section (5) of section 135 of the Companies Act, 2013 pursuant to any ongoing project. Accordingly, reporting under clause (xx)(b) of the Order is not applicable.
- xxi) The reporting under clause 3(xxi) of this order is not applicable in respect of audit of standalone financial statements. Accordingly, no comment in respect of the said clause has been included in this report.

Annexure “B” to the Independent Auditors Report on the Standalone Financial Statements of G G ENGINEERING LIMITED

(Referred to in paragraph 2 (f) under ‘Report on Other Legal and Regulatory Requirements’ of our report of even date)

REPORT ON THE INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING UNDER CLAUSE (i) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 (“THE ACT”)

We have audited the internal financial controls over financial reporting of G G ENGINEERING LIMITED (“the Company”) as of March 31, 2025 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

MANAGEMENT’S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS’ RESPONSIBILITY

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on my/our audit conducted in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal Financial Controls over Financial Reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone Financial Statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

G G Engineering Limited

Notes forming part of financial statements for the year ended 31 March 2025

(All figures are in ₹ Lakhs, unless otherwise stated)

Note 1 : Corporate Information

GG Engineering Limited ("the Company") is a company limited by shares having its registered office at Office No. 203, 2nd Floor, Shivam Chambers Coop Soc Ltd. S.V Road, Goregaon West, Near Sahara Apartment Mumbai - 400 104 & Corporate office at 3rd Floor, Unit no 306, Shivam House, B-2 Commercial Complex, Karampura, New Delhi 110015. The company is trading into Iron and Steel Metals.

Note 2 : Significant Accounting Policies**a. Basis of Preparation**

These financial statements have been prepared in accordance with the generally accepted accounting principles in India under the historical cost convention on accrual basis, except for certain tangible assets which are being carried at revalued amounts. Pursuant to section 133 of the Companies Act, 2013 read with Rule 7(1) of the Companies (Accounts) Rules, 2014, till the standards of accounting or any addendum thereto are prescribed by Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing Accounting Standards notified under the Companies Act, 1956 shall continue to apply. Consequently, these financial statements have been prepared to comply in all material aspects with the accounting standards notified under Section 211(3C) of the Companies Act, 1956 [Companies (Accounting Standards) Rules, 2006, as amended] and other relevant provisions of the Companies Act, 2013.

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III (Division I) to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

b. Functional and Presentation currency

These standalone Ind AS financial statements are presented in Indian Rupees (INR), which is the Company's functional currency

c. Basis of measurement

The standalone Ind AS financial statements have been prepared on a historical cost basis, except for the following that are measured at fair values at the end of each reporting period: - (i) certain financial assets and liabilities and contingent consideration that is measured at fair value

d. First-time adoption

In accordance with Ind AS 101 on First-time adoption of Indian Accounting Standards, the Company's first Ind AS financial statements include, the opening balance sheet as at 1 April, 2019; Balance sheet as at 31 March 2020 and 31 March 2021; two statements each of profit and loss, cash flow and changes in Equity for the year ended 31 March 2020 and 31 March 2021 together with related notes.

The same accounting policies have been used for all periods presented, except where the Company has made use of exceptions or exemptions allowed under Ind AS 101 in the presentation of the opening Ind AS balance sheet.

The balance sheets, statements of profit and loss, statements of cash flows and statements of changes in equity of the prior years presented have been recast in accordance with Ind AS.

e. Tangible Assets

Plant, Property and Equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any, except in case of land which is carried at revalued amount. Cost comprises of the purchase price including import duties and non-refundable taxes, and directly attributable expenses incurred to bring the asset to the location and condition necessary for it to be capable of being operated in the manner intended by management. Subsequent costs related to an item of Property, Plant and Equipment are recognised in the carrying amount of the item if the recognition criteria are met.

Items of Property, Plant and Equipment that have been retired from active use and are held for disposal are stated at the lower of their net carrying amount and net realisable value and are shown separately in the financial statements under the head 'Other current assets'. Any write-down in this regard is recognised immediately in the Statement of Profit and Loss.

Depreciation is provided on a pro-rata basis on the straight-line method over the estimated useful lives of the assets, based on technical evaluation done by management's expert, which are higher than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The depreciation charge for each period is recognised in the Statement of Profit and Loss, unless it is included in the carrying amount of any other asset. The useful life, residual value and the depreciation method are reviewed atleast at each financial year end. If the expectations differ from previous estimates, the changes are accounted for prospectively as a change in accounting estimate.

The estimates of useful lives of tangible assets are as follows :

Assets	Useful Life
Plant & Machinery	15 years
Vehicle	8 years
Office Equipments	5 years
Furniture	10 years
Computer	3 years

f. Investments

Investments that are readily realisable and are intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as non-current investments. Current investments are valued at fair value. Non-current investments are carried at cost. However, provision for diminution is made to recognise a decline, other than temporary, in the value of non-current investments, such reduction being determined and made for each investment individually.

g. Inventories

Raw materials, packing materials, stores, spares and consumables are valued at lower of cost and net realisable value. However, these items are realisable at cost if the finished products in which they will be used are expected to be sold at or above cost. Finished goods, stock-in-trade and work-in-progress are valued at lower of cost and net realizable value. Cost is ascertained on weighted average method and in case of finished products and work-in-progress; it includes appropriate production overheads and duties.

h. Ind AS 115, Revenue from contracts from Customers

Ind AS 115 supersedes Ind AS 11, Construction Contracts and Ind AS 18, Revenue. Ind AS 115 requires an entity to report information regarding nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with customers. The principle of Ind AS 115 is that an entity should recognise that demonstrates the transfer of promised goods and services to customer at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard can be applied either retrospectively to each prior reporting period presented or can be applied retrospectively with recognition of cumulative effect of contracts that are not completed contracts at the date of initial application of the standard.

Revenue is recognised upon transfer of control of promised services or products to customers in an amount that reflects the consideration which Company expects to receive in exchange for those services or products.

Revenue from sale of goods is recognised when the significant risks and rewards of ownership of the goods have been passed to the customer. Sales are net off sales returns, free quantities delivered and trade discounts.

Interest Income:

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable. For all debt instruments measured either at amortized cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR).

Dividend Income:

Dividend income is accounted for when the right to receive the same is established, which is generally when shareholders approve the dividend.

Other Income:

Other income is accounted for on accrual basis except where the receipt of income is uncertain in which case it is accounted for on receipt basis.

i. Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date. Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously. Minimum Alternate Tax ("MAT") under the provision of Income tax Act, 1961 is recognised as current tax in the statement of profit and loss. MAT paid in accordance with the laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is a convincing evidence that the company will pay normal tax. Accordingly, MAT is recognised as an asset in the balance sheet when it is probable that the future economic benefit associated with it will flow to the company and included under Deferred tax assets. Current tax assets and liabilities are offset only if, the Company:

1. has a legally enforceable right to set off the recognised amounts; and
2. intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

21/04/2021

j. Deferred Tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company can control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognized or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised. Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

k. Provisions and Contingent Liabilities

Provisions : Provisions for legal claims, service warranties are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent Liabilities : Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

l. Earnings per share

(i) Basic earnings per share: - Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the fiscal year

(ii) Diluted earnings per share: -

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after-income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

m. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The management assesses the financial performance and position of the Company and makes strategic decisions. The chief operating decision maker, consists of the Managing Director and Chairman of the Company.

n. Cash and Cash Equivalents

The Company's statement of cash flows is prepared using the Indirect method, whereby profit for the period is adjusted for the effect of transaction of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payment and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

Cash and cash equivalents comprise cash and bank balances and short-term fixed bank deposits that are subject to an insignificant risk of changes in value. These also include bank overdrafts and cash credit facility that form an integral part of the Company's cash management.

निदेशक

o. Current and Non Current Classification

The Schedule III to the Act requires assets and liabilities to be classified as either current or non-current. The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- (i) it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- (ii) it is expected to be realised within twelve months from the reporting date;
- (iii) it is held primarily for the purposes of being traded; or
- (iv) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date. All other assets are classified as non-current

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
- it is due to be settled within twelve months from the reporting date;
- it is held primarily for the purposes of being traded; or
- the Company does not have an unconditional right to defer settlement of the liability for atleast twelve months from the reporting date

All other liabilities are classified as non-current.

p. Operating Cycle

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Based on the nature of operations and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for current – non-current classification of assets and liabilities.

q. Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has notified and amendments to the existing standards. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its financial statements.

r. CSR Policy

2A) Reference to the cited provisions of section 135 of the Companies Act, 2013, CSR activities are applicable on the company.

Reclassification of Prior Period Figures

(Pursuant to Ind AS 1 – Presentation of Financial Statements and Ind AS 109 – Financial Instruments)

During the current year, the Company has changed the presentation of transactions relating to the sale and purchase of shares and securities. Previously, such transactions were presented on a gross basis, i.e., separately showing the sale proceeds as revenue and the purchase cost as expenses. In line with the requirements of Ind AS 109 (Financial Instruments) and to provide more relevant information, the Company has now presented these transactions on a net basis, recognizing only the net gain or loss from such transactions under 'Revenue From Operations'.

In accordance with Ind AS 1 – Presentation of Financial Statements (Paragraphs 41–44), the comparative figures for the previous period have been reclassified to conform with the current year's presentation. This reclassification is a presentation change and does not have any impact on the net profit or loss or equity for the previous year.

Accordingly, revenue and expenses relating to such transactions have been netted off in the segment results for the FY 2023-24 and 2024-25 to make it comparable.

37 **Financial risk management**

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors has established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Committee reports to the Board of Directors on its activities. The Company's risk management policies are established to identify and analyses the risks faced by the Company, to set appropriate risks limits and controls and to monitor risk and adherence to limits. Risk management policies and systems are reviewed periodically to reflect changes in market conditions and the Company's activities. The Company, through its training, standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations. The audit committee oversees how management monitors compliance with the company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit.

Credit Risk

Credit risk is the risk of financial loss to the company if a customer or counter party to a financial instrument fails to meet its contractual obligations, and arises principally from the company's receivable from customers. Credit risk is managed through credit approvals establishing credit limits and continuously monitoring the creditworthiness of customers to which the company grants credit terms in the normal course of business. The company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade receivables and other financial assets.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring as far as possible, that it will all ways have sufficient liquidity to meets it liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risk to Company's reputation.

Market Risk

Market risk is the risk that changes in market prices- such as foreign exchange rates, interest rates and equity prices- will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payable and long term debt. We are exposed to market risk primarily related to foreign exchange rate risk. Thus, our exposure to market risk is a function of revenue generating and operating activities in foreign currency. The objective of market risk management is to avoid excessive in our foreign currency revenues and costs. The Company uses derivative to manage market risk.

B. Fair value measurements recognised in the statement of financial position:

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Particulars	As at 31 March 2025			As at 31 March 2024		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
At Amortised Cost

INDEPENDENT AUDITOR'S REPORT

To the Members of **INTEGRA ESSENTIA LIMITED**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the Standalone financial statements of **INTEGRA ESSENTIA LIMITED** ("the Company"), which comprise the balance sheet as at 31st March, 2025, the statement of Profit and Loss (Including Other Comprehensive Income), statement of changes in equity, and the statement of cash flows for the period then ended, and notes to the Standalone Financial Statements, including a summary of significant accounting policies and other explanatory information

Subject to the possible impact due to matters reported in other matters para, in our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2025, its profit and total comprehensive Profit, changes in equity and its cash flows for the period ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the *Code of Ethics* issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. Except for the documents/information related to matters mentioned in other matters para, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than the financial statements and auditors' report thereon

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Business Responsibility Report but does not include the Standalone Financial Statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the

company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure-"A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report, to the extent applicable, that:

We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit except the information and explanation related to matters mentioned in other matters para.

Annexure A

ANNEXURE TO THE AUDITOR'S REPORT

The Annexure referred to in our report to the members of INTEGRA ESSENTIA LIMITED("the Company") for the year ended March 31, 2025.

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

With reference to the Annexure A referred to in the Independent Auditors' Report to the members of the Company on the standalone financial statements for the year ended 31st March 2025, we report the following:

- i) a) (A) In the absence of requisite documents, we are unable to comment if the Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
- (B) The Company does not have intangible assets as on balance sheet date.
- b) According to the information and explanations given to us, the Company has a regular programme of physical verification of its property, plant and equipment by which all property, plant and equipment are verified in a phased manner. In accordance with this programme, certain property, plant and equipment were verified during the year and no such material discrepancies were noticed. However we have not been provided any physical verification report for our verification and hence we are unable to comment if periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets.
- c) The title deeds of all the immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee) disclosed in the financial statements are held in the name of the company.
- d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its property, plant and equipment (including right of use asset) or intangible assets or both during the year. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Register Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment (including Right of Use Assets) or intangible Assets does not arise.
- e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) (formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and rules made thereunder & therefore question of our commenting on whether the Company has appropriately disclosed the details in its standalone financial statement does not arise.
- ii) a) The company does not have any inventory and hence reporting under clause 3(ii)(a) of the order is not applicable.

- b) According to the information and explanations given to us and based on our audit procedures, the Company has been sanctioned working capital limits in excess of five crore rupees in aggregate from banks during the year, on the basis of security of current assets (refer Note No. 49(v) to the financial statements). The quarterly returns or statements filed by the Company with such banks are in agreement with the books of account.
- iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company, during the year, has not provided any guarantee or security to companies, firms, limited liability partnerships or any other parties during the year. The Company, during the year, has made investment and granted loans and advances in the nature of loans during the year to companies and other parties.

a) During the year, the Company has provided loans and guarantees, the details of which are disclosed in the financial statements (refer Note No.4,5 and 11).

b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion,

The investments made and the terms and conditions of same are prima facie, not prejudicial to the Company's interest. Terms and Conditions in respect of the grant of loans and advances in the nature of loans, during the year, to companies or any other parties are prima facie, not prejudicial to the Company's interest. During the year the Company has not provided guarantees, provided security to companies, firms, Limited Liability Partnerships or any other parties.

c) According to the information and explanations given to us and based on the audit procedures conducted by us, in our opinion, the Company has granted loans during the year to companies or any other entities where the schedule of repayment of principal and payment of interest has not been stipulated. Hence in the absence of same, we are unable to make a specific comment on the regularity of repayment of principal and payment of interest in respect of such loan.

d) The Company has granted loans and in all cases schedule of repayment of principal and payment of interest has not been stipulated. Hence in the absence of same, we are unable to make a specific comment on the regularity of repayment of principal and payment of interest in respect of such loans and hence unable to comment upon any over amount for more than ninety days.

e) There is no case of any loan or advance in the nature of loan granted which has fallen due during the year and which has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.

f) According to the information and explanations given to us and on the basis of our examination of the records of the Company, all the loans granted by the company are for fixed defined tenure. Although the repayment schedule is not specifically defined in terms of instalment amounts or dates, the tenure and maturity of the loan are fixed. Accordingly, these loans are not in the nature of loans repayable on demand or loans granted without specifying any terms or period of repayment. Therefore, reporting under this clause is not applicable.

- b) We have considered the internal audit reports of the Company issued till date for the period under audit.
- xv) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence requirement to report on clause 3(xv) of the Order is not applicable to the Company.
- xvi) a) The provisions of section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934) are not applicable to the Company. Accordingly, the requirement to report on clause (xvi)(a) of the Order is not applicable to the Company.
- b) The Company has not conducted any Non-Banking Financial or Housing Finance activities without obtaining a valid Certificate of Registration (CoR) from the Reserve Bank of India as per the Reserve Bank of India Act, 1934.
- c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by Reserve Bank of India. Accordingly, Clause 3(xvi)(c) of the order is not applicable to the Company.
- d) According to the information and explanations provided to us during the course of audit, the Group does not have any CICs which are a part of the Group. We have not, however, separately evaluated whether the information provided by the Management is accurate and complete. Accordingly, the requirements of clause 3(xvi)(d) are not applicable to the Company.
- xvii) The company has not incurred cash losses during the financial year and in the immediately preceding financial year.
- xviii) There is no resignation of the statutory auditors of the company during the year.
- xix) According to the information and explanations given to us and on the basis of the financial ratios disclosed in note 46 to standalone financial statements, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx) According to the information and explanations given to us and based on our examination of the records, there was no amount remaining unspent under sub-section (5) of section 135 of the Companies Act, 2013 pursuant to any ongoing project. Accordingly, reporting under clause (xx)(b) of the Order is not applicable.

xxi) The reporting under clause 3(xxi) of this order is not applicable in respect of audit of standalone financial statements. Accordingly, no comment in respect of the said clause has been included in this report.

Annexure "B" to the Independent Auditors Report on the Standalone Financial Statements of INTEGRA ESSENTIA LIMITED

(Referred to in paragraph 2 (f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date)

REPORT ON THE INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING UNDER CLAUSE (i) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")

We have audited the internal financial controls over financial reporting of INTEGRA ESSENTIA LIMITED ("the Company") as of March 31, 2025 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on my/our audit conducted in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal Financial Controls over Financial Reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

H. No. 103A, New Lahore Shastri Nagar, Street No. 4, (Behind Jain Mandir), New Delhi-110031

Email Id - caarunbhargav17@gmail.com

Akbhargav.co@gmail.com

M- 8860300686

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone Financial Statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Note 1: Company Overview

Integra Essentia Limited ("the Company") is a public limited company, incorporated and domiciled in India which mainly deals in trading of essential items like Cashew, Rice etc. The registered office of the Company is located at 607, 6th Floor, Pearls Best Height -II, Netaji Subhash Place, North West Delhi, Delhi, India, 110034. The Company is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE).

The standalone financial statements for the year ended 31 March 2025 were approved by the Board of Directors and authorised for issue on 27 May 2025.

Note 2: Significant Accounting Policies

(a) Basis of Preparation of Financial Statements

(i) Statement of Compliance with Indian Accounting Standards (Ind AS)

These financial statements comply, in all material respects, with Ind AS notified under section 133 of the Companies Act, 2013 ("the Act"), Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other relevant provisions of the Act.

(ii) Historical Cost Convention

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities:

- a) Certain financial assets and liabilities that are measured at fair value
- b) Derivative financial instruments

(iii) Functional and Presentation Currency

These financial statements are presented in Indian Rupees, which is also the functional currency of the Company.

(iv) Current and Non-current Classification

All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle (Twelve months) and other criteria set out in Schedule III to the Act.

(b) Property, Plant and Equipment (PPE) and Depreciation

All items of PPE are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost includes its purchase price including non-refundable taxes and duties, directly attributable costs of bringing the asset to its present location and condition and initial estimate of costs of dismantling and removing the item and restoring the site on which it is located.

Subsequent costs are included in the carrying amount of PPE or recognised as a separate PPE, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

Machinery spares and servicing equipment are recognised as PPE when they meet the definition of PPE. Otherwise, such items are classified as inventory.

Capital work-in-progress includes cost of PPE under installation / under development as at the Balance Sheet date

The Company depreciates its PPE over the useful life in the manner prescribed under Part C of Schedule II to the Act. Depreciation commences when the assets are ready for their intended use and is computed on pro-rata basis from the date of installation/ acquisition till the date of sale/ disposal. Management believes that useful life of assets are same as those prescribed in Schedule II to the Act, except for machinery spares wherein based on technical evaluation, useful life has been estimated to be different from that prescribed in Schedule II of the Act

Assets	Useful Life
Plant & Machinery	5 years & 15 years
Furniture and Fixtures	10 years
Office Equipments	3 years
Vehicle	8 years
Land & Building	60 years
Computer	3 years

Lease hold PPE are amortised over the period of lease or useful life, whichever is lower. Leasehold land (under Finance Lease) is amortised over the period of lease.

Gains and losses on disposals are determined by comparing net disposal proceeds with carrying amount.

These are included in the Statement of Profit and Loss.

(c) Intangible Assets and Amortisation

Intangible assets that are acquired by the Company, which have finite useful lives are measured at cost less amortisation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost includes its purchase price including non-refundable taxes and duties, directly attributable costs of bringing the asset to its present location and condition.

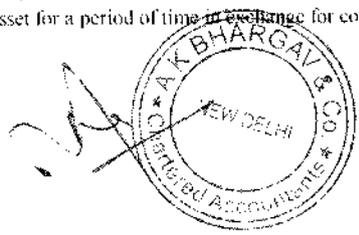

Intangible assets are amortised on straight line basis over the estimated useful life.

Gains and losses on disposals are determined by comparing net disposal proceeds with carrying amount.

These are included in the Statement of Profit and Loss.

(d) Leases

At inception of a contract, company shall assess whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Notes to the financial statements for the year ended 31 March 2025

(All figures are in lakhs except otherwise stated)

Where the Company is Lessee

At the inception, lessee shall recognise and measure Right-of-use asset and lease liability at cost. Right to use assets shall comprise initial measurement of lease liability, any lease payments made at or before the commencement date, less any lease incentives received, any initial direct costs incurred by the lessee; and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories.

Lease liability is the present value of the lease payments that are not paid. These lease payments shall be discounted using the interest rate implicit in the lease (if readily determined) otherwise should be discounted at lessee's incremental borrowing rate.

If the lease contract transfers ownership of the underlying asset, at the end of the lease term or if, the cost of the right-of-use asset reflects that the lessee will exercise a purchase option, then depreciate the right-of-use asset over the useful life of the underlying asset. Otherwise, depreciate the right-of-use asset till the end of the useful life of the right-of-use asset or the end of the lease term, whichever is earlier.

The lease term as the non-cancellable period of a lease, together with both: (a) periods covered by an option to extend the lease if the lessee is reasonably certain to exercise that option; and (b) periods covered by an option to terminate the lease if the lessee is reasonably certain not to exercise that option.

Subsequently, lessee shall measure the right-of-use asset applying a cost model

Where the Company is Lessor

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight line basis over the term of the relevant lease

(e) Borrowing Cost

Borrowing costs are interest and other costs that the Company incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing.

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use. Other borrowing costs are expensed in the period in which they are incurred.

(f) Financial instruments**(i) Financial Assets****Initial Recognition and Measurement**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent Measurement

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income (FVTOCI) or fair value through profit or loss (FVTPL) on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset, as per Ind AS 109.

a. Subsequent Measurement - Equity Instruments

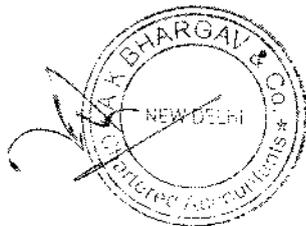

All equity investments other than investments in subsidiaries, joint ventures and associates are measured at fair value. Equity investments which are held for trading are classified as FVTPL. For all other equity investments, the Company decides to classify the same either at FVTOCI or FVTPL. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

Investment in equity instruments of subsidiaries, joint ventures and associates are measured at cost.

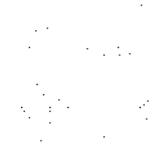

b. Subsequent Measurement - Debt Instruments

A financial asset being debt instrument that meets the following 2 conditions is measured at amortised cost (net off any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

Business Model Test: the objective of the Company's model is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realise its fair value changes).

(All figures are in lakhs except otherwise stated)

Cash Flow Characteristics Test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

A financial asset that meets the following 2 conditions is measured at fair value through other comprehensive income unless the asset is designated at fair value through profit or loss under the fair value option.

Business Model Test: the financial asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets.

Cash Flow Characteristics Test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

Even if an instrument meets the two requirements to be measured at amortised cost or fair value through other comprehensive income, a financial asset is measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency (sometimes referred to as an 'accounting mismatch') that would otherwise arise from measuring assets or liabilities or recognising the gains or losses on them on different basis.

All other debt instruments are measured at fair value through profit or loss.

Derecognition of Financial Assets

The Company de-recognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset, to another entity.

Impairment of Financial Assets

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and FVTOCI.

For financial assets other than trade receivables, whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk on the financial instruments has significantly increased since initial recognition.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables, considering historical trend, industry practices and the business environment in which the Company operates or any other appropriate basis.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

(v) Equity and Financial Liabilities

Debt and equity instruments issued by an entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

a. **Equity Instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

b. **Financial Liabilities**

Initial Recognition and Measurement

Financial liabilities are initially recognised at fair value plus any transaction costs that are attributable to the acquisition of the financial liabilities, except for the financial liabilities at FVTPL, which are initially measured at fair value.

Subsequent Measurement

The financial liabilities are classified for subsequent measurement either at amortised cost or at fair value through Profit and Loss (FVTPL).

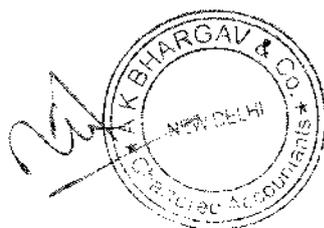

Amortised cost for financial liabilities represents amount at which financial liability is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount.

Derecognition of Financial Liabilities

A financial liability is removed from the Balance Sheet when the obligation is discharged, or is cancelled, or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(g) Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted prices in active markets for identical assets or liabilities
- Level 2 — Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3 — Inputs for the asset or liability that are not based on observable market data.

(h) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs comprise direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. The cost formula used for determination of cost is 'Weighted Average Cost'.

Machinery spares, stand-by equipment and servicing equipment are recognised as inventory when the useful life is less than one year and the same are charged to the Statement of Profit and Loss as and when issued for consumption.

(i) Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The Company's liability for current tax is calculated using the Indian tax rates and laws that have been enacted by the reporting date. The Company periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretations and provisions where appropriate.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax assets is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and current tax liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum Alternate Tax (MAT) credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

(j) Provisions and Contingencies Provisions

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities and Contingent Assets

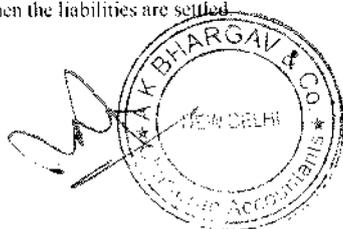

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases, where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements unless the probability of outflow of resources is remote.

Contingent assets are not recognised in the financial statements. If the inflow of economic benefits is probable, then it is disclosed in the financial statements

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each Balance Sheet date.

(k) Employee Benefits**(i) Short-term Obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(iv) Post-employment Obligations

The Company operates the following post-employment schemes:

- (a) Defined benefit plan (Gratuity), and
- (b) Defined contribution plans such as, provident fund.

Defined Benefit Plan

The liability or asset recognised in the Balance Sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually on the basis of actuarial valuation using the Projected Unit Credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The interest cost is calculated by applying the discount rate to the balance of the defined benefit obligation. This cost is included in employee benefits expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income.

Defined Contribution Plans

Defined Contribution Plans such as provident fund are charged to the Statement of Profit and Loss as an expense, when an employee renders the related services.

(v) Other Long-term Employee Benefits

The liabilities for compensated absences that are not expected to be settled wholly within 12 months are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the Projected Unit Credit method. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

The obligations are presented as current liabilities in the Balance Sheet if the entity does not have any unconditional right to defer settlement for at least 12 months after the end of the reporting period, regardless of when the actual settlement is expected to occur.

(l) Cash and Cash Equivalents

For the purpose of presentation in the Statement of Cash Flows as well as the Balance Sheet, cash and cash equivalents include cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(m) Earnings per Share (EPS)

Basic earnings per share are computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for the events for bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares.

(n) Dividend Distribution to Equity Shareholders

Dividend distributed to Equity shareholders is recognised as distribution to owners of capital in the Statement of Changes in Equity, in the period in which it is paid. Dividend proposed by the Board of Directors, subject to the approval of shareholders, is disclosed in the notes to financial statements.

(o) Foreign Currency Transactions

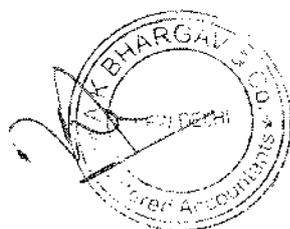

Transactions in foreign currencies are recognised at the prevailing exchange rates on the transaction dates. Realised gains and losses on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss.

Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of Profit and Loss.

(p) Revenue Recognition

“Revenue from contracts with customers”. Revenue from contracts with customers is recognized on transfer of control of promised goods or services to the customer at amount that reflects the consideration to which the company is expected to be entitled to in exchange for those goods or services. Revenue towards satisfaction of performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract. This variable consideration is estimated based on expected value of outflow. Revenue (net of variable consideration) is recognized only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

Revenue from sale of products is recognized when the control on the goods have been transferred to the customer. The performance obligation in case of sale of products is satisfied at a point in time when material is shipped / delivered to the customer as may be specified in the contract.

Notes to the financial statements for the year ended 31 March 2025

(All figures are in lakhs except otherwise stated)

Interest Income

Interest income is accrued on a time proportion basis, by reference to the principal outstanding and the applicable effective interest rate.

Dividend Income

Dividend income from investments is recognised when the shareholder's rights to receive payment have been established.

Income from Services

Income from services is recognised (net of taxes as applicable) as they are rendered, based on agreement/ arrangement with the concerned customers.

(g) Significant Accounting Estimates, Judgements and Assumptions:

The preparation of the Company's financial statements in conformity with Ind AS requires Management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances existing when the financial statements were prepared. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates is recognised in the year in which the estimates are revised and in any future year affected.

In the process of applying the Company's accounting policies, Management has made the following

judgements which have significant effect on the amounts recognised in the financial statements:

- i. **Useful Lives of Property, Plant and Equipment:** Determination of the estimated useful life of tangible assets and the assessment as to which components of the cost may be capitalised. Useful life of tangible assets is based on the life specified in Schedule II of the Act and also as per Management estimate for certain category of assets. Assumption also needs to be made, when the Company assesses, whether an asset may be capitalised and which components of the cost of the assets may be capitalised.
- ii. **Fair Value Measurement of Financial Instruments:** When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using appropriate valuation techniques. The inputs for these valuations are taken from observable sources where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of various inputs including liquidity risk, credit risk, volatility etc. Changes in assumptions/ judgements about these factors could affect the reported fair value of financial instruments.
- iii. **Measurement of Defined Benefit Plan:** The cost of the defined benefit gratuity plan and other post-employment benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.
- iv. **Impairment of Financial Assets:** Trade receivables are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when Management deems them not collectable. Impairment is made on the expected credit loss model, which is the present value of the cash shortfall over the expected life of the financial assets. The impairment provisions for financial assets are based on assumption about the risk of default and expected loss rates. Judgement in making these assumptions and selecting the inputs to the impairment calculation are based on past history, existing market condition as well as forward looking estimates at the end of each reporting period.
- v. **Impairment of Non-financial Assets:** The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units (CGU's) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered as impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.
- vi. **Contingencies:** Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/ claim/ litigation against the Company as it is not possible to predict the outcome of pending matters with accuracy.

M) Taxation

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognized in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

Current Income Tax

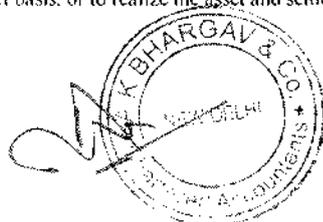

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable

income for that period. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.

Current tax assets and liabilities are offset only if, the Company:

- Has a legally enforceable right to set off the recognized amounts; and
- Intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred Income Tax

REGD OFF: 607, 6th Floor, Pearls Best Height -II, Netaji Subhash Place, North West Delhi, Delhi, India, 110034

Notes to the financial statements for the year ended 31 March 2025

(All figures are in lakhs except otherwise stated)

Deferred tax is recognized for the future tax consequences of deductible temporary differences between the carrying values of assets and liabilities and their respective tax bases at the reporting date, using the tax rates and laws that are enacted or substantively enacted as on reporting date.

Minimum Alternate Tax ("MAT") under the provisions of the Income Tax Act, 1961 is recognised as deferred tax in the Statement of Profit and Loss. The credit available under the Income Tax Act, 1961 in respect of MAT paid is recognised as an asset only when and to the extent it is probable that future taxable profit will be available against which these tax credit can be utilised. Such an asset is reviewed at each Balance Sheet date.

Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses and credits can be utilized.

Deferred tax assets and liabilities are offset only if:

- Entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- Deferred tax assets and the deferred tax liabilities relate to the income taxes levied by the same taxation authority

N) Earnings per Share (EPS)

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value which is the average market value of the outstanding shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

O) Cash and Cash Equivalents

Cash and Cash equivalents comprises cash and calls on deposit with banks and corporations. The Company considers all highly liquid financial instruments, which are readily convertible into cash and have original maturities of three months or less from the date of purchase, to be cash equivalent.

P) Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

R) Provisions and Contingencies

Provisions are recognized when the Company has a present obligation as a result of a past event, for which it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. Provision is not discounted to its present value and is determined based on the last estimate required to settle the obligation at the year end.

Contingent liabilities are not provided for and are disclosed by way of notes to accounts, where there is an obligation that may, but probably will not, require outflow of resources.

Where there is a possible obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

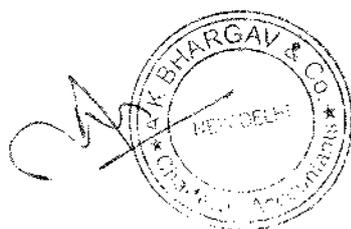

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are neither recognized nor disclosed in the financial statements.

2A) Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has notified and amendments to the existing standards. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its financial statements.

2B) Reference to the cited provisions of section 135 of the Companies Act, 2013, CSR activities are applicable on the company.

B. Fair value measurements recognised in the statement of financial position:

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Particulars	As at 31 March 2025			As at 31 March 2024

Other Financial Liabilities	-	-	323.21	-	-	248.07
Subtotal	-	-	4,696.25	-	-	5,654.08

The fair value of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

Cash and cash equivalents, Trade receivables, Other current Financial assets, Trade payable and other current Financial liabilities approximate their carrying amounts largely due to the short-term maturities or nature of these instruments.

C. Fair values hierarchy

All assets and liabilities for which fair value is measured or disclosed in the Standalone Financial Statements are categorised within the fair value hierarchy, described as follows:

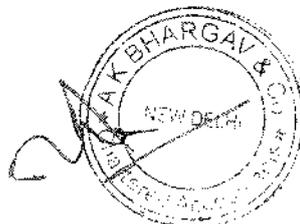

Level 1: Quoted prices (unadjusted) in active markets for financial instruments.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Valuation process and technique used to determine fair value

(i) The management assessed that fair value of cash and cash equivalents, trade receivables, trade payables, bank overdrafts and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

(ii) The fair values of the equity investment which are quoted, are derived from quoted market prices in active markets. The investments measured at fair value and falling under fair value hierarchy Level 3 are valued on the basis of valuation reports provided by external valuers with the exception of certain investments, where cost has been considered as an appropriate estimate of fair value because of a wide range of possible fair value measurements and cost represents the best estimate of fair values within that range.

(iii) The fair value of non-current borrowings carrying floating-rate of interest is not impacted due to interest rate changes, and will not be significantly different from their carrying amounts as there is no significant change in the underlying credit risk of the Company (since the date of inception of the loans).

D. Credit risk

The maximum exposure to credit risks is represented by the total carrying amount of these financial assets in the balance sheet

Particulars	As at 31 March 2025	As at 31 March 2024
Trade receivables	6,742.28	3,903.23
Cash and cash equivalents	11.23	195.59

46 Ratios

Ratio	Numerator	Denominator	Current period	Previous period	% variance	Reason for variance
Current Ratio	Current Assets	Current Liabilities	2.26	0.76	197%	The significant increase in the current ratio is primarily due to a substantial rise in current assets and/or a reduction in current liabilities, indicating improved short-term liquidity and working capital management in the current period.
Debt-Equity Ratio	Total Debt	Total shareholder's Equity	0.16	0.06	147%	The increase in this ratio an increase in debt. This suggests higher reliance on borrowed funds during the current period, though the ratio still remains within a comfortable range.
Debt Service Coverage Ratio	EBITDA	Interest + Borrowing	0.43	2.93	-85%	The decline in DSCR is due to a lower EBITDA and an increase in debt servicing costs (interest + principal repayments). This indicates a reduced ability to service debt obligations from operational earnings.
Return On Equity	Net Income	Average Shareholder's Equity	0.03	0.16	-82%	The fall in ROE is attributed to a decline in net profit, while the average equity base may have remained stable or increased. This suggests lower profitability on shareholders' funds during the year.
Inventory Turnover Ratio	Cost of Goods Sold	Average Inventories	NA	NA	NA	NA
Trade Receivable Turnover Ratio	Net Credit Sale	Average account Receivable	8.30	11.23	-26%	The decline indicates slower collection from customers or an increase in average trade receivables, pointing to less efficient credit management.
Trade Payable Turnover Ratio	Net Credit Purchase	Average account Payable	13.44	7.59	77%	The rise in this ratio indicates faster payments to suppliers or a decrease in average trade payables, potentially due to improved liquidity or revised vendor payment terms.
Net Capital Turnover Ratio	Total Sale	Shareholder's Equity	2.60	2.37	10%	NA
Net Profit Ratio	Net Profit	Revenue	0.01	0.06	-83%	The significant drop is mainly due to reduced net profit margins, indicating higher operating costs, reduced income, or one-time expenses affecting profitability.
Return On Capital Employed	Earning Before Interest & Tax	Capital Employed	0.05	0.16	-71%	The decline is primarily due to lower EBIT and increased capital employed. This suggests less efficient use of capital in generating earnings.
Return on Investment	Income from Investment	Cost of Investment	0%	9%	-96%	Return on investment during the current period is decreased.

Operating segments:

Dealing in essential items

Trading Division - Infrastructure

Identification of segments:

The chief operational decision maker monitors the operating results of its business segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit and loss of the segment and is measured consistently with profit or loss in these financial statements. Operating segments have been identified on the basis of the nature of products.

Segment revenue and results

The expenses and income which are not directly attributable to any business segment are shown as unallocable expenditure (net of unallocable income).

Segment assets and liabilities

The assets and liabilities of the Company are used interchangeably amongst segments. Allocation of such assets and liabilities is not practicable and any forced allocation would not result in any meaningful segregation. Hence, assets and liabilities have not been identified to any of the reportable segments.

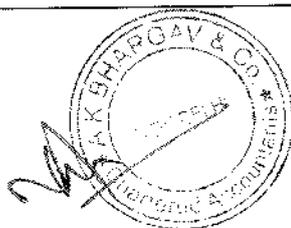

Major customers

For the quarter ended March 2025, revenue from three customers of the essential item segment represented approximately ₹ 1,217.23 Lakhs, ₹1,154.12 and ₹ 1,060.65 Lakhs of the total revenue.

For the quarter ended December 2024, revenue from three customers of the essential item segment represented approximately ₹ 1,977.92 Lakhs, ₹1,690.56 and ₹ 1,590.49 Lakhs of the total revenue.

For the Year ended March 2025, revenue from one customers of the essential item segment represented approximately ₹ 5,759.90 Lakhs of the total revenue

The comparative figures of segment results is not applicable because the company had single segment in the corresponding period/year

INDEPENDENT AUDITOR'S REPORT

To the Members of **INTEGRA ESSENTIA LIMITED**

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated financial statements of **INTEGRA ESSENTIA LIMITED** (hereinafter referred to as "Holding Company"), its Subsidiary/associates/ joint ventures (the Parent and its Subsidiary/associates/ joint ventures together referred to as 'the Group'), which comprise the consolidated balance sheet as at 31st March, 2025, the consolidated statement of Profit and Loss(Including Other Comprehensive Income), consolidated statement of changes in equity, and the consolidated statement of cash flows for the period then ended, and notes to the Consolidated Financial Statements, including a summary of significant accounting policies and other explanatory information.

Subject to the possible impact due to matters reported in other matters para, in our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2025, its profit and total comprehensive Profit, changes in equity and its cash flows for the period ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the *Code of Ethics* issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. Except for the documents/information related to matters mentioned in other matters para, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than the financial statements and auditors' report thereon

The Holding Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Business Responsibility Report but does not include the Consolidated Financial Statements and our auditor's report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Consolidated financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Consolidated Financial Statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the group and its associates are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial Statements of such entity included in the Consolidated Financial Statements of which we are the independent auditors, for the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Ind AS financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the

In our opinion and according to the information and explanations given to us and based on the consideration of reports of other statutory auditors of subsidiary company and associate company, the remuneration paid by the Group Companies to its directors during the current year is in accordance with the provisions of section 197 read with Schedule V to the Act.

4. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government in terms of Section 143(11) of the Act, according to the information and explanations given to us and based on the CARO reports of the Company and its associates (to the extent applicable), there are no qualifications or adverse remarks in those CARO reports.

We have not issued CARO reports on the financial statements of the associates included in the consolidated financial statements, as those have not been audited by us or by other auditors and are unaudited.

Annexure “A” to the Independent Auditors Report on the Consolidated Financial Statements of INTEGRA ESSENTIA LIMITED

(Referred to in paragraph 2 (f) under ‘Report on Other Legal and Regulatory Requirements’ of our report of even date)

REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCILA STATEMENTS UNDER CLAUSE (i) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 (“THE ACT”)

We have audited the internal financial controls with reference to consolidated financial statements of INTEGRA ESSENTIA LIMITED (“hereinafter referred to as Holding Company”) as of March 31, 2025 in conjunction with our audit of the Consolidated Financial Statements of the Holding Company and such companies incorporated in India under the companies Act, 2013 which are its associates company, as at and for the year ended on that date.

MANAGEMENT’S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Company’s management is responsible for establishing and maintaining internal financial controls based on the criteria established by the respective Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS’ RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements based on my/our audit conducted in accordance with the Guidance Note and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance

regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Consolidated Financial Statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2025, based on the internal financial controls with reference to consolidated financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

The Consolidated financial statements for the year ended 31 March 2025 were approved by the Board of Directors and authorised for issue on 27 May 2025.

Company Name	Relationship	Stake
Brevtus Beverages Private Limited	Associate	29.75%

Note 2: Significant Accounting Policies

(a) Basis of Preparation of Financial Statements

(i) Statement of Compliance with Indian Accounting Standards (Ind AS)

These financial statements comply, in all material respects, with Ind AS notified under section 133 of the Companies Act, 2013 ("the Act"). Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other relevant provisions of the Act.

(ii) Historical Cost Convention

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities:

- a) Certain financial assets and liabilities that are measured at fair value
- b) Derivative financial instruments
- c) Functional and Presentation Currency

These financial statements are measured in Indian Rupees, which is also the functional currency of the Company.

(iv) Current and Non-current Classification

All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle (Twelve months) and other criteria set out in Schedule III to the Act.

(b) Property, Plant and Equipment (PPE) and Depreciation

All items of PPE are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost includes its purchase price including non-refundable taxes and duties, directly attributable costs of bringing the asset to its present location and condition and initial estimate of costs of dismantling and removing the item and restoring the site on which it is located.

Subsequent costs are included in the carrying amount of PPE or recognised as a separate PPE, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

Machinery spares and servicing equipment are recognised as PPE when they meet the definition of PPE. Otherwise, such items are classified as inventory.

Capital work-in-progress includes cost of PPE under installation / under development as at the Balance Sheet date.

The Company depreciates its PPE over the useful life in the manner prescribed under Part C of Schedule II to the Act. Depreciation commences when the assets are ready for their intended use and is computed on pro-rata basis from the date of installation/ acquisition till the date of sale/ disposal. Management believes that useful life of assets are same as those prescribed in Schedule II to the Act, except for machinery spares wherein based on technical evaluation, useful life has been estimated to be different from that prescribed in Schedule II of the Act.

Assets	Useful Life
Plant & Machinery	5 years & 15 years
Furniture and Fixtures	10 years
Office Equipments	3 years
Vehicle	8 years
Land & Building	60 years
Computer	3 years

Lease hold PPE are amortised over the period of lease or useful life, whichever is lower. Leasehold land (under Finance Lease) is amortised over the period of lease. Gains and losses on disposals are determined by comparing net disposal proceeds with carrying amount.

These are included in the Statement of Profit and Loss.

(c) Intangible Assets and Amortisation

Intangible assets that are acquired by the Company, which have finite useful lives are measured at cost less amortisation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost includes its purchase price including non-refundable taxes and duties, directly attributable costs of bringing the asset to its present location and condition.

Intangible assets are amortised on straight line basis over the estimated useful life.

Gains and losses on disposals are determined by comparing net disposal proceeds with carrying amount.

These are included in the Statement of Profit and Loss.

(d) Leases

At inception of a contract, company shall assess whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Where the Company is Lessee

At the Inception, lessee shall recognise and measure Right-of-use asset and lease liability at cost. Right to use assets shall comprise initial measurement of lease liability, any lease payments made at or before the commencement date, less any lease incentives received, any initial direct costs incurred by the lessee; and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories.

Lease liability is the present value of the lease payments that are not paid. These lease payments shall be discounted using the interest rate implicit in the lease (if readily determined) otherwise should be discounted at lessee's incremental borrowing rate.

If the lease contract transfers ownership of the underlying asset, at the end of the lease term or if, the cost of the right-of-use asset reflects that the lessee will exercise a purchase option, then depreciate the right-of-use asset over the useful life of the underlying asset. Otherwise, depreciate the right-of-use asset till the end of the useful life of the right-of-use asset or the end of the lease term, whichever is earlier.

The lease term as the non-cancellable period of a lease, together with both: (a) periods covered by an option to extend the lease if the lessee is reasonably certain to exercise that option; and (b) periods covered by an option to terminate the lease if the lessee is reasonably certain not to exercise that option.

Subsequently, lessee shall measure the right-of-use asset applying a cost model.

Where the Company is Lessor

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight line basis over the term of the relevant lease

(e) Borrowing Cost

Borrowing costs are interest and other costs that the Company incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing.

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use. Other borrowing costs are expensed in the period in which they are incurred

(f) Financial instruments

(i) Financial Assets

Initial Recognition and Measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset

Subsequent Measurement

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income (FVTOCI) or fair value through profit or loss (FVTPL) on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset, as per Ind AS 109.

a. Subsequent Measurement - Equity Instruments

All equity investments other than investments in subsidiaries, joint ventures and associates are measured at fair value. Equity investments which are held for trading are classified as FVTPL. For all other equity investments, the Company decides to classify the same either at FVTOCI or FVTPL. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

Investment in equity instruments of subsidiaries, joint ventures and associates are measured at cost.

b. Subsequent Measurement - Debt Instruments

A financial asset being debt instrument that meets the following 2 conditions is measured at amortised cost (net off any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

Business Model Test. the objective of the Company's model is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realise its fair value changes).

Notes to the financial statements for the year ended 31 March 2025

(All figures are in lakhs except otherwise stated)

Cash Flow Characteristics Test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

A financial asset that meets the following 2 conditions is measured at fair value through other comprehensive income unless the asset is designated at fair value through profit or loss under the fair value option.

Business Model Test: the financial asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets.

Cash Flow Characteristics Test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

Even if an instrument meets the two requirements to be measured at amortised cost or fair value through other comprehensive income, a financial asset is measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency (sometimes referred to as an 'accounting mismatch') that would otherwise arise from measuring assets or liabilities or recognising the gains or losses on them on different basis.

All other debt instruments are measured at fair value through profit or loss.

Derecognition of Financial Assets

The Company de-recognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset, to another entity.

Impairment of Financial Assets

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and FVTOCI

For financial assets other than trade receivables, whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk on the financial instruments has significantly increased since initial recognition.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables, considering historical trend, industry practices and the business environment in which the Company operates or any other appropriate basis.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

(ii) Equity and Financial Liabilities

Debt and equity instruments issued by an entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

a. Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

b. Financial Liabilities

Initial Recognition and Measurement

Financial liabilities are initially recognised at fair value plus any transaction costs that are attributable to the acquisition of the financial liabilities, except for the financial liabilities at FVTPL which are initially measured at fair value.

Subsequent Measurement

The financial liabilities are classified for subsequent measurement either at amortised cost or at fair value through Profit and Loss (FVTPL).

Amortised cost for financial liabilities represents amount at which financial liability is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount.

Derecognition of Financial Liabilities

A financial liability is removed from the Balance Sheet when the obligation is discharged, or is cancelled, or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

Handwritten signatures and initials.

(g) Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted prices in active markets for identical assets or liabilities
- Level 2 — Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3 — Inputs for the asset or liability that are not based on observable market data.

(h) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs comprise direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. The cost formula used for determination of cost is 'Weighted Average Cost'.

Machinery spares, stand-by equipment and servicing equipment are recognised as inventory when the useful life is less than one year and the same are charged to the Statement of Profit and Loss as and when issued for consumption.

(i) Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The Company's liability for current tax is calculated using the Indian tax rates and laws that have been enacted by the reporting date. The Company periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretations and provisions where appropriate.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax assets is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences and losses

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and current tax liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum Alternate Tax (MAT) credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

(j) Provisions and Contingencies Provisions

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities and Contingent Assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases, where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements unless the probability of outflow of resources is remote.

Contingent assets are not recognised in the financial statements. If the inflow of economic benefits is probable, then it is disclosed in the financial statements.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each Balance Sheet date.

(k) Employee Benefits***or Short-term Obligations***

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Post-employment Obligations

The Company operates the following post-employment schemes:

- (a) Defined benefit plan (Gratuity), and
- (b) Defined contribution plans such as, provident fund.

Defined Benefit Plan

The liability or asset recognised in the Balance Sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually on the basis of actuarial valuation using the Projected Unit Credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The interest cost is calculated by applying the discount rate to the balance of the defined benefit obligation. This cost is included in employee benefits expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income.

Defined Contribution Plans

Defined Contribution Plans such as provident fund are charged to the Statement of Profit and Loss as an expense, when an employee renders the related services.

(iii) Other Long-term Employee Benefits

The liabilities for compensated absences that are not expected to be settled wholly within 12 months are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the Projected Unit Credit method. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

The obligations are presented as current liabilities in the Balance Sheet if the entity does not have any unconditional right to defer settlement for at least 12 months after the end of the reporting period, regardless of when the actual settlement is expected to occur.

(l) Cash and Cash Equivalents

For the purpose of presentation in the Statement of Cash Flows as well as the Balance Sheet, cash and cash equivalents include cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(m) Earnings per Share (EPS)

Basic earnings per share are computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for the events for bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net off any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares.

(n) Dividend Distribution to Equity Shareholders

Dividend distributed to Equity shareholders is recognised as distribution to owners of capital in the Statement of Changes in Equity, in the period in which it is paid. Dividend proposed by the Board of Directors, subject to the approval of shareholders, is disclosed in the notes to financial statements.

(o) Foreign Currency Transactions

Transactions in foreign currencies are recognised at the prevailing exchange rates on the transaction dates. Realised gains and losses on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss.

Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of Profit and Loss.

(p) Revenue Recognition

'Revenue from contracts with customers'. Revenue from contracts with customers is recognized on transfer of control of promised goods or services to the customer at amount that reflects the consideration to which the company is expected to be entitled to in exchange for those goods or services. Revenue towards satisfaction of performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract. This variable consideration is estimated based on expected value of outflow. Revenue (net of variable consideration) is recognized only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

Revenue from sale of products is recognized when the control on the goods have been transferred to the customer. The performance obligation in case of sale of products is satisfied at a point in time when material is shipped / delivered to the customer as may be specified in the contract.

Handwritten signatures and initials, including a large signature that appears to be 'Rajiv' and other initials.

Interest Income

Interest income is accrued on a time proportion basis, by reference to the principal outstanding and the applicable effective interest rate.

Dividend Income

Dividend income from investments is recognised when the shareholder's rights to receive payment have been established.

Income from Services

Income from services is recognised (net of taxes as applicable) as they are rendered, based on agreement/ arrangement with the concerned customers.

(q) Significant Accounting Estimates, Judgements and Assumptions:

The preparation of the Company's financial statements in conformity with Ind AS requires Management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances existing when the financial statements were prepared. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates is recognised in the year in which the estimates are revised and in any future year affected.

In the process of applying the Company's accounting policies, Management has made the following judgements which have significant effect on the amounts recognised in the financial statements:

- i. **Useful Lives of Property, Plant and Equipment:** Determination of the estimated useful life of tangible assets and the assessment as to which components of the cost may be capitalised. Useful life of tangible assets is based on the life specified in Schedule II of the Act and also as per Management estimate for certain category of assets. Assumption also needs to be made, when the Company assesses, whether an asset may be capitalised and which components of the cost of the assets may be capitalised.
- ii. **Fair Value Measurement of Financial Instruments:** When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using appropriate valuation techniques. The inputs for these valuations are taken from observable sources where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of various inputs including liquidity risk, credit risk, volatility etc. Changes in assumptions/ judgements about these factors could affect the reported fair value of financial instruments.
- iii. **Measurement of Defined Benefit Plan:** The cost of the defined benefit gratuity plan and other post-employment benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.
- iv. **Impairment of Financial Assets:** Trade receivables are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when Management deems them not collectable. Impairment is made on the expected credit loss model, which is the present value of the cash shortfall over the expected life of the financial assets. The impairment provisions for financial assets are based on assumption about the risk of default and expected loss rates. Judgement in making these assumptions and selecting the inputs to the impairment calculation are based on past history, existing market condition as well as forward looking estimates at the end of each reporting period.
- v. **Impairment of Non-financial Assets:** The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units (CGU's) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered as impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

- vi. **Contingencies:** Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/ claim/ litigation against the Company as it is not possible to predict the outcome of pending matters with accuracy.

M) Taxation

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognized in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

Current Income Tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income

for that period. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.

Current tax assets and liabilities are offset only if, the Company:

- Has a legally enforceable right to set off the recognized amounts; and
- Intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred Income Tax

Notes to the financial statements for the year ended 31 March 2025

(All figures are in lakhs except otherwise stated)

Deferred tax is recognized for the future tax consequences of deductible temporary differences between the carrying values of assets and liabilities and their respective tax bases at the reporting date, using the tax rates and laws that are enacted or substantively enacted as on reporting date.

Minimum Alternate Tax ("MAT") under the provisions of the Income Tax Act, 1961 is recognised as deferred tax in the Statement of Profit and Loss. The credit available under the Income Tax Act, 1961 in respect of MAT paid is recognised as an asset only when and to the extent it is probable that future taxable profit will be available against which these tax credit can be utilised. Such an asset is reviewed at each Balance Sheet date.

Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses and credits can be utilized.

Deferred tax assets and liabilities are offset only if:

Entity has a legally enforceable right to set off current tax assets against current tax liabilities; and

Deferred tax assets and the deferred tax liabilities relate to the income taxes levied by the same taxation authority

N) Earnings per Share (EPS)

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value which is the average market value of the outstanding shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

O) Cash and Cash Equivalents

Cash and Cash equivalents comprises cash and calls on deposit with banks and corporations. The Company considers all highly liquid financial instruments, which are readily convertible into cash and have original maturities of three months or less from the date of purchase, to be cash equivalent.

P) Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

R) Provisions and Contingencies

Provisions are recognized when the Company has a present obligation as a result of a past event, for which it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. Provision is not discounted to its present value and is determined based on the last estimate required to settle the obligation at the year end.

Contingent liabilities are not provided for and are disclosed by way of notes to accounts, where there is an obligation that may, but probably will not, require outflow of resources.

Where there is a possible obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are neither recognized nor disclosed in the financial statements.

2A) Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has notified and amendments to the existing standards. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its financial statements.

2B) Reference to the cited provisions of section 135 of the Companies Act, 2013, CSR activities are applicable on the company.

B. Fair value measurements recognised in the statement of financial position:

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Particulars	As at 31 March 2025			As at 31 March 2024

Subtotal	-	-	4,696.25	-	-	5,654.08

The fair value of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values.

Cash and cash equivalents, Trade receivables, Other current Financial assets, Trade payable and other current Financial liabilities approximate their carrying amounts largely due to the short-term maturities or nature of these instruments.

C. Fair values hierarchy

All assets and liabilities for which fair value is measured or disclosed in the Consolidated Financial Statements are categorised within the fair value hierarchy, described as follows:

Level 1: Quoted prices (unadjusted) in active markets for financial instruments.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Assets at fair value				
Investments measured at fair value through other comprehensive Income	-	-	-	-
Investments measured at fair value through profit and loss	-	-	-	-
Total	-	-	-	-

There have been no transfers between levels during the period

Valuation process and technique used to determine fair value

(i) The management assessed that fair value of cash and cash equivalents, trade receivables, trade payables, bank overdrafts and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

(ii) The fair values of the equity investment which are quoted, are derived from quoted market prices in active markets. The investments measured at fair value and falling under fair value hierarchy Level 3 are valued on the basis of valuation reports provided by external valuers with the exception of certain investments, where cost has been considered as an appropriate estimate of fair value because of a wide range of possible fair value measurements and cost represents the best estimate of fair values within that range.

(iii) The fair value of non-current borrowings carrying floating-rate of interest is not impacted due to interest rate changes, and will not be significantly different from their carrying amounts as there is no significant change in the under-lying credit risk of the Company (since the date of inception of the loans).

D. Credit risk

The maximum exposure to credit risks is represented by the total carrying amount of these financial assets in the balance sheet

Particulars	As at 31 March 2025	As at 31 March 2024
Trade receivables	6,742.28	3,003.73
Cash and cash equivalents	11.23	195.59
Investments	3,495.39	6,932.08
Loans	2,894.08	3,583.51
Other financial assets (including investments)	6.57	6.47

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations

Credit risk on cash and cash equivalents and bank deposits is generally limited as the Company transacts with Banks having a high credit ratings assigned by domestic credit rating agencies

46 Ratios

Ratio	Numerator	Denominator	Current period	Previous period	% variance	Reason for variance
Current Ratio	Current Assets	Current Liabilities	2.27	0.76	197%	The significant increase in the current ratio is primarily due to a substantial rise in current assets and/or a reduction in current liabilities, indicating improved short-term liquidity and working capital management in the current period.
Debt-Equity Ratio	Total Debt	Total shareholder's Equity	0.16	0.06	147%	The increase in this ratio an increase in debt. This suggests higher reliance on borrowed funds during the current period, though the ratio still remains within a comfortable range.
Debt Service Coverage Ratio	EBITDA	Interest+ Borrowing	0.42	2.93	-86%	The decline in DSCR is due to a lower EBITDA and an increase in debt servicing costs (interest + principal repayments). This indicates a reduced ability to service debt obligations from operational earnings.
Return On Equity	Net Income	Average Shareholder's Equity	0.03	0.16	-83%	The fall in ROE is attributed to a decline in net profit, while the average equity base may have remained stable or increased. This suggests lower profitability on shareholders' funds during the year.
Inventory Turnover Ratio	Cost of Goods Sold	Average Inventories	NA	NA	NA	NA
Trade Receivable Turnover Ratio	Net Credit Sale	Average account Receivable	8.30	11.23	-26%	The decline indicates slower collection from customers or an increase in average trade receivables, pointing to less efficient credit management.
Trade Payable Turnover Ratio	Net Credit Purchase	Average account Payable	13.44	7.59	77%	The rise in this ratio indicates faster payments to suppliers or a decrease in average trade payables, potentially due to improved liquidity or revised vendor payment terms.
Net Capital Turnover Ratio	Total Sale	Shareholder's Equity	2.60	2.37	10%	NA
Net Profit Ratio	Net Profit	Revenue	0.01	0.06	-84%	The significant drop is mainly due to reduced net profit margins, indicating higher operating costs, reduced income, or one-time expenses affecting profitability.
Return On Capital Employed	Earning Before Interest & Tax	Capital Employed	0.04	0.16	-71%	The decline is primarily due to lower EBIT and increased capital employed. This suggests less efficient use of capital in generating earnings.
Return on Investment	Profit from Investment	Cost of Investment	0%	9%	-98%	Return on investment during the current period is decreased.

47. Information on Segment Reporting pursuant to Ind AS 108 - Operating Segments

Operating segments:

Dealing in essential items

Trading Division - Infrastructure

Identification of segments:

The chief operational decision maker monitors the operating results of its business segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit and loss of the segment and is measured consistently with profit or loss in these financial statements. Operating segments have been identified on the basis of the nature of products.

Segment revenue and results

The expenses and income which are not directly attributable to any business segment are shown as unallocable expenditure (net of unallocable income).

Segment revenue, assets and liabilities results include the respective amounts identifiable to each of the segments and amounts allocated on a reasonable basis.

Segment assets and liabilities

The assets and liabilities of the Company are used interchangeably amongst segments. Allocation of such assets and liabilities is not practicable and any forced allocation would not result in any meaningful segregation. Hence, assets and liabilities have not been identified to any of the reportable segments.

Major customers

For the quarter ended March 2025, revenue from three customers of the essential item segment represented approximately ₹ 1,217.23 Lakhs, ₹1,154.12 and ₹ 1,060.65 Lakhs of the total revenue.

For the quarter ended December 2024, revenue from three customers of the essential item segment represented approximately ₹ 1,977.92 Lakhs, ₹1,690.56 and ₹ 1,590.49 Lakhs of the total revenue.

For the Year ended March 2025, revenue from one customers of the essential item segment represented approximately ₹ 5,759.90 Lakhs of the total revenue.

The comparative figures of segment results is not applicable because the company had single segment in the corresponding period/year

3&4) DETAILED OBJECTIVE & RATIONALE OF THE SCHEME

Objective and Rationale for the Scheme of Arrangement for Amalgamation:

The objective of this Scheme of Arrangement, under Sections 230-232 of the Companies Act, 2013, is to amalgamate G G Engineering Limited ('Transferor Company') with Integra Essentia Limited ('Transferee Company'). The Transferee Company will issue its equity shares to the shareholders of the Transferor Company in exchange for amalgamation. Upon the Effective Date, the Transferor Company shall stand dissolved without winding up, with its entire business and assets transferred to the Transferee Company, subject to existing charges.

This Scheme of Amalgamation would result, inter-alia, in the following synergies for both the Transferor and Transferee companies and thereby preserving and creating value for its shareholders, creditors and various other stakeholders:

- ***Consolidating strengths:***

The Transferor Company is in the business of superior infrastructure Infrastructural & Structural Steel, and Engineering products which are used for diverse applications in various industries, like infrastructure, construction, mega projects, modern buildings, high-rise residential and commercial projects, engineering set-ups among others. The merger will enhance and strengthen the Transferee Company's infrastructure division, improving its operational capabilities and market competitiveness. It aims to enrich the combined product offerings and expand the customer base both locally and globally.

3&4) DETAILED OBJECTIVE & RATIONALE OF THE SCHEME

- ***Value creation for Shareholders:***

The proposed amalgamation is expected to create economic value for both the Transferor and Transferee companies. Shareholders of the Transferor company will benefit from reduced finance costs, improved profitability, and additional resources to fund business growth. Shareholders of the Transferee company are expected to benefit from business expansion. Shareholders of both companies are also likely to benefit from increased value created through business synergies, cost savings, reduced administrative/operating costs, and improved financial performance of the merged entity.

- ***Focused management, synergies, and Growth prospects:***

The Proposed Amalgamation would not only create economies of scale but also simplify management and strategic focus, leading to improved long-term performance. It will facilitate better and more efficient control over the business and financial conduct of the merged company, allowing for a more streamlined and coordinated approach to governance and strategic decision-making.

The combined entity, on the back of its financial stability is likely to attract more opportunities for organic and inorganic growth viz., partnerships, acquisitions, and market expansion, translating into enhanced financial prospects.

3&4) DETAILED OBJECTIVE & RATIONALE OF THE SCHEME

In summary, the amalgamation of the Transferor Company with the Transferee Company is driven by strategic business objectives of preserving businesses of both companies, build strong foundation and achieve market competitiveness by combining the collective strength of both the companies, achieving business and operational synergies & efficiencies, improved financial stability and performance, and thereby preserving and creating long-term value for its various stakeholders.

This comprehensive rationale as above underscores the strategic motivations, expected benefits, and the context surrounding the Proposed Amalgamation, highlighting its alignment with both the companies' objectives and the interests of their various stakeholders.
